

North Dakota Public Fishing Waters

Data as of: December 26, 2016

The following includes all public fishing waters, listed alphabetically by county name. Each listing includes travel directions, status of the fishery for the upcoming season, and fishing piers (listed if present). Larger systems have inset maps to give better detail for boating access locations of that system. Each location listing includes travel directions, facilities present, and managing authority. Most of North Dakota public fishing waters have a boat ramp (concrete and/or metal). If a boat ramp is lacking at a specific water body, it is listed as 'no ramp'. [Hyperlinked Public Waters](#) will open a PDF showing an aerial photo fishing map of the surrounding area and facilities available. The map may also include depth contours.

Adams County

Mirror Lake (Adams County): South side of Hettinger. Good number of catfish up to 7 pounds. Some small pike up to 1 pound. Abundant bullhead up to 3/4 pound. (Fishing pier).

North Lemmon (Adams County): 5 miles north of Lemmon, South Dakota. Rainbow trout stocked annually. Small brown trout present. Abundant small yellow perch. Fair number of bluegill up to a 1/2 pound. Fair number of largemouth bass up to 4 pounds. Some walleye up to 10 pounds. (Fishing pier).

Barnes County

Lake Ashtabula (Barnes County): Walleye and pike abundant, with good numbers of large fish. Fair numbers of perch. Occasional crappie, white bass. Good numbers of smallmouth bass.

Mel Reiman Area -- 11 miles north on River Road of Valley City (Paved access road, fish cleaning facility, developed and primitive camping, security lights, picnic shelter, trash receptacles, concession, RV dump station -- U.S. Army Corps of Engineers).

Sundstroms Landing -- 9 miles north, 2 miles west, 1 miles north of Valley City (Gravel access road, security lights, picnic shelter, trash receptacles, fishing pier -- U.S. Army Corps of Engineers).

Bayshore Resort -- 12 miles north, .4 miles west of Valley City (Paved access road, fish cleaning facility, developed and primitive camping, security lights, trash receptacles, concession, RV dump station, fishing pier -- U.S. Army Corps of Engineers).

Katie Olson -- 14.5 miles north on River Road, 3 miles east of Valley City (Gravel access road, security lights -- U.S. Army Corps of Engineers).

Ashtabula Crossing -- 16.5 miles north of Valley City (Paved access road, fish cleaning facility, developed and primitive camping, security lights, picnic shelter, trash receptacles, concession, RV dump station, fishing pier -- U.S. Army Corps of Engineers).

Sibley Crossing -- 23.5 miles north of Valley City (Paved access road, fish cleaning facility, security lights, trash receptacles, concession, fishing pier -- U.S. Army Corps of Engineers).

Karnack Bridge -- 20 miles north, 2.3 miles west, 4 miles north, 2.8 miles east of Valley City (Gravel access road, no restrooms -- North Dakota Game and Fish Department).

Headwaters Area -- No Public Boating Access

Blumers Pond (Barnes County): 1 mile south of Valley City. Good shore-fishing for early season trout. (No ramp).

Clausen Springs (Barnes County): 3 miles north, 1 mile east, .5 miles north of the junction of ND highways 46 and 1. Abundant largemouth bass and bluegill. (Fishing pier).

Clauson Lake (Barnes County): 4 miles west, .5 miles south, .5 miles east of Nome. Perch abundant up to 12 inches. (No ramp).

Eckelson Lake North (Barnes County): 3 miles north, .5 miles east, 1 mile north, .5 miles east of Eckelson. Good perch population, with large fish present. (No ramp).

Barnes County

Eckelson Lake South (Barnes County): 4 miles south, 1.5 miles east of Eckelson. Low population of larger pike. Fair numbers of perch, with some large fish. (No ramp).

Fox Lake (Barnes County): 1 mile north, .5 miles west of Eckelson. Good walleye and perch population with larger fish present.

Hatchery Kids Pond (Barnes County): 2 miles northwest of Valley City. Good shore-fishing for early season trout. (No ramp).

Hobart Lake North (Barnes County): 3.5 miles northwest of I-94 Exit 288. Perch abundant, with some large fish. (No ramp).

Hobart Lake South (Barnes County): 1.4 miles south, 3.4 miles west of I-94 Exit 288. Perch abundant. (No ramp).

Island Lake (Barnes County): 3 miles south, .5 miles east of Urbana. Good numbers of walleye. Some perch present. (No ramp).

Kee Lake (Barnes County): 7 miles south, 2 miles east of Eckelson. Good perch and walleye populations. A few pike. (No ramp).

Koebornick Pond (Barnes County): 1 mile north, 4 miles west, 1 mile north of Rogers. Fair numbers of perch. (No ramp).

Meadow Lake (Barnes County): 6 miles west, 6 miles north of Litchville. Fair numbers of perch. Low number of walleye. (No ramp).

Middle Eckelson (Barnes County): 2 miles east of Eckelson. Various sizes of pike and perch. (No ramp).

Moon Lake (Barnes County): 2 miles west, 5.5 miles south, 4 miles west, 2 miles north of Valley City. Perch and walleye abundant. Occasional smallmouth bass, with some brown and rainbow trout.

Olson WPA (Barnes County): 1.5 miles north of I-94 Exit 283. Fair number of medium-sized perch. (No ramp).

Sanborn Lake (Barnes County): 2 miles east, 1 mile north, .5 miles east of Sanborn. Good numbers of pike. (No ramp).

Sanborn WPA (Barnes County): 1 mile east of Sanborn. Fair numbers of pike and perch. (No ramp).

St. Mary's Lake (Barnes County): 2 miles west, 5.5 miles south, 4 miles west, 1 mile north of Valley City. Good numbers of walleye. (No ramp).

Benson County

Fort Totten Dam (Benson County): .5 miles east of Fort Totten. No recent information. (No ramp).

Gravel Pit Lake (Benson County): 4.5 miles west of Fort Totten. No recent information. (No ramp).

Mission Lake (Benson County): 5 miles south, 1.5 miles east, 2 miles south of Devils Lake. No recent information. (No ramp).

Silver Lake (Benson County): 4 miles west, 4.7 miles south, 2 miles east of Churchs Ferry. Connected to Devils Lake. Same species available. (No ramp).

Wood Lake (Benson County): 2 miles west, 1 mile south of Tokio. Perch and bluegill numerous, but small. Good number of bigger walleye and some large pike.

Bottineau County

Boundary Lake (Bottineau County): 9 miles north, 11 miles east, 2.5 miles north of Bottineau. Decent number of 6- to 8-inch perch. (No ramp).

Carbury Dam (Bottineau County): 1 mile south, 1 mile west of Carbury. Decent number of 16- 25-inch northern pike. (Fishing pier).

Long Lake (Bottineau County): 8 miles north, 7 miles east, 1 mile south, 1 mile east, .5 miles south, .3 miles east of Bottineau. Decent pike and walleye populations. Lots of small perch.

Bottineau County

Loon Lake (Bottineau County): 9 miles north, 4 miles east, 2 miles south, 2 miles east, .5 miles north of Bottineau. Fairly new perch fishery, with high perch numbers and some larger fish. (No ramp).

Lake Metigoshe (Bottineau County): 9 miles north, 4 miles east, 1 mile north of Bottineau. Holds several sizes of bluegill, including some large fish, along with some nice crappie. Good numbers of walleye, with a wide range of sizes. Good northern pike fishing, with some large fish. (Fishing pier).

Pelican Lake (Bottineau County): 9 miles north, 8 miles east, .5 miles southwest of Bottineau. Decent number of northern pike.

Strawberry Lake (Bottineau County): 4 miles north, 2.5 miles east, .5 miles south of Carbury. Rainbow trout stocked annually. (Fishing pier).

Thompson Lake (Bottineau County): 9 miles north, 4 miles east, 2 miles south, 1 mile east, 1 mile south of Bottineau. Yellow perch stocked in 2012. (No ramp).

Bowman County

Bowman-Haley Dam (Bowman County): 11 miles south, 8 miles east, 2 miles south of Bowman. Good number of walleye up to 9 pounds, northern pike up to 13 pounds, white bass up to 1 pound and smallmouth bass up to 1.5 pounds. Some yellow perch up to 3/4 pound and crappie up to 3/4 pound. Abundant large carp up to 18 pounds, good for bowfishing. (Fishing pier).

Gascoyne Lake (Bowman County): 1.5 miles northwest of Gascoyne. Northern pike stocked annually, with some fish up to 4 pounds. Yellow perch stocked in 2014. Small carp, bullhead and green sunfish abundant at times.

Kalina Dam (Bowman County): 2 miles west, 1 mile south, 1 mile west, 1 mile south of Bowman. Abundant northern pike up to 11 pounds and bluegill up to 1 pound. Some small yellow perch and crappie. Make sure to access lake from south shore. (No ramp).

Lutz Dam (Bowman County): 2.5 miles south, 2 miles west, .75 miles north of Griffin. Rainbow trout stocked annually. Winter killed recently. Abundant bluegill and crappie up to 1/4 pound. Small adult largemouth bass stocked in 2012. (No ramp).

Spring Lake (Bowman County): 1 mile south, 4 miles west of Rhame. Good number of pike up to 4 pounds and perch up to 1/2 pound.

Burke County

Northgate Dam (Burke County): 6 miles north, 1 mile west, 2 miles north, .5 miles west of Bowbells. Good populations of walleye, rainbow trout and bluegill. Fair number of black crappie and a few largemouth bass. (Fishing pier).

Powers Lake (Burke County): Southeast side of Powers Lake. Pike in good numbers and a variety of sizes. (Fishing pier).

Short Creek Dam (Burke County): 5.5 miles north of Columbus. Fair populations of northern pike, walleye, yellow perch and bluegill. (Fishing pier).

Smishek Lake (Burke County): 4 miles northwest of Powers Lake. Good numbers of yellow perch and a few large bluegill. Also fair numbers of walleye and northern pike, with a few big fish of both species. White suckers are fairly abundant and a management problem. (Fishing pier).

Burleigh County

Apple Creek (Burleigh County): South central part of state. Good for northern pike, walleye, crappie and catfish. (No ramp).

Cottonwood Park Pond (Burleigh County): On west side of Cottonwood soccer complex in south Bismarck. Adult northern pike (and other species) may be stocked in spring. (Fishing pier, no ramp).

Crimmins WPA (Burleigh County): 3 miles west, 11 miles north, .5 miles west of Wing. Small yellow perch and walleye up to 20 inches abundant. (No ramp).

Lake Harriet (Arena Lake) (Burleigh County): 8 miles west, 1 mile south of Tuttle. Northern pike abundant and perch are present in low numbers. (No ramp).

Burleigh County

Long Lake (Burleigh County): 1 mile south, 2.5 miles east of Moffit. Northern pike abundant. Contact refuge for specific angling regulations. (Fishing pier, no ramp).

McDowell Dam (Burleigh County): 4 miles east, 1 mile north of Bismarck on ND Highway 10. Bluegill and largemouth bass are abundant. Rainbow trout are stocked in spring. (Fishing pier).

New Johns Lake (Burleigh County): 11.8 miles south, 3 miles east of Mercer. Decent walleye numbers, with some larger fish. Northern pike numbers have increased in recent years. Good numbers and sizes of smallmouth bass. Periodically stocked with muskie. (Fishing pier).

OWLS Pond (Burleigh County): Just west of Bismarck Game and Fish office. Rainbow trout are stocked in spring and fall. Other species (bluegill, perch, catfish and white bass) may be stocked. (Fishing pier, no ramp).

Cass County

Brewer Lake (Cass County): 1 mile south, 1 mile west of Erie. Good largemouth bass and bluegill populations. Some larger bass. (Fishing pier).

Casselton Pond (Cass County): Southeast corner of Casselton. Rainbow trout stocked annually. (No ramp).

Casselton Reservoir (Cass County): Just west of Casselton. Good numbers of pike and bluegill. (Fishing pier).

Lindemann Lake (Cass County): 2 miles north, 1 mile east, .5 miles north of Enderlin. Good numbers of perch and walleye. (No ramp).

North Woodhaven Pond (Cass County): 2.25 miles south, .25 miles east of I-94 Exit 348. Rainbow trout stocked annually. Bluegill present. (Fishing pier, no ramp).

South Woodhaven Pond (Cass County): 2.8 miles south, .25 miles east of I-94 Exit 348. Small- to medium-sized perch abundant. (Fishing pier, no ramp).

Cavalier County

Langdon City Pond (Cavalier County): South side of Langdon. Put-and-take trout lake, with most fish caught in May. (Fishing pier).

Mount Carmel Dam (Cavalier County): 9 miles north, 2 miles east, 2 miles north of Langdon. Fair number of perch, with most around 9 inches. Walleye numbers fair, with fish up to 20 inches. Lots of nice pike. (Fishing pier).

Dickey County

Heinrich Lake (Dickey County): 17.5 miles east, 1 mile south of Ashley. Yellow perch up to 14 inches. (No ramp).

Hofer Lake (Dickey County): 7 miles east, 1.75 miles north of Ellendale. Fair numbers of pike. (No ramp).

Moore's Lake (Dickey County): 18.5 miles west, 1 mile north of Ellendale. Fair number of pike and perch. Low population of largemouth bass. (No ramp).

Pheasant Lake (Dickey County): 6 miles west of Ellendale. Low numbers of pike, perch, crappie and walleye. Developing bluegill fishery. (Fishing pier).

Shimmons Lake (Dickey County): 20.5 miles west, 1 mile south of Ellendale. Good numbers of pike. (No ramp).

TAD Lake (Dickey County): 8 miles west of Oakes. Good numbers of walleye. Fair numbers of perch. (No ramp).

Wilson Dam (Dickey County): 7.5 miles west of Monango. Fair numbers of perch and small bluegill. Occasional pike. (Fishing pier).

Divide County

Baukol-Noonan Dam (Divide County): 2 miles east, .5 miles south of Noonan. Primarily rainbow trout, along with some walleye, and largemouth bass. Mostly small yellow perch and bluegill also present. (Fishing pier).

Divide County

Skjermo Lake (Divide County): 3 miles west, 4 miles northwest of Fortuna. Strong population of northern pike and a fair number of yellow perch, stocked with adult bluegill in 2016. (Fishing pier).

Dunn County

Dvorak Dam (Dunn County): 3.5 miles south, 5 miles east, .5 miles north of Manning. Yellow perch stocked in 2009. (No ramp).

Lake Ilo (Dunn County): 1 mile west, 1 mile south of Dunn Center. Abundant northern pike up to 10 pounds, some perch up to a half pound. (Fishing pier).

Eddy County

Adams Lake (Eddy County): 10 miles south of Warwick. Lots of smaller perch, with some up to 10 inches and a few walleye. (No ramp).

Battle Lake (Eddy County): .5 miles south, 1.5 miles west, 1.5 miles south of Hamar. High density pike lake, with catchable, thin fish. (No ramp).

Lake Coe (Eddy County): 10 miles south of Warwick on east side of Eddy County Road 8. Good numbers of walleye, with several size classes. Fish above 18 inches are common. Lots of perch, but most are less than 10 inches.

New Rockford Reservoir (Eddy County): North side of New Rockford. Primarily a pike fishery but walleye and smaller perch are also available. Bullheads are abundant. (Fishing pier, no ramp).

Warsing Dam (Eddy County): 1 mile northeast of Sheyenne. Recovering from a partial winterkill in 2013. Good numbers of pike, with most fish about 25 inches. Some perch and small walleye. (Fishing pier).

Emmons County

Baumgartner Lake (Emmons County): 6 miles south of Linton. Northern pike are abundant and low numbers of perch are present. (No ramp).

Braddock Dam (Emmons County): 2 miles southwest of Braddock. Fair numbers of northern pike, walleye and yellow perch. Bluegill, channel catfish, and black bullheads are present.

Goose Lake (Emmons County): 3 miles east of Braddock. Northern pike are abundant and perch are present. (No ramp).

Jake's Lake (Emmons County): 13 miles south, 1 mile east of Strasburg. Northern pike are abundant. (No ramp).

Miller Lake (Emmons County): 1 mile west of Hague. Northern pike and perch are present in fair numbers. (No ramp).

Rice Lake (Emmons County): 8 miles south of Strasburg. Outstanding walleye, northern pike and perch fishery.

Senger Lake (Emmons County): 1 mile north, 6 miles east of Strasburg. Multiple year-classes of perch are present in fair numbers. (No ramp).

Foster County

Dry Lake (Foster County): 7 miles east, 5 miles south, 2 miles east of Carrington. Good number of walleye, and most are eater-size. Some big walleye present. Fewer perch and a strong bullhead population. (No ramp).

Juanita Lake (Foster County): 2 miles east of Grace City. Winterkill in 2013 sharply reduced pike and perch populations. Some pike available, but not high numbers. Bullheads are abundant. (Fishing pier).

Golden Valley County

Beach City Pond (Golden Valley County): Southwest side of Beach. Rainbow trout stocked annually. (Fishing pier, no ramp).

Camels Hump Lake (Golden Valley County): Northeast of Sentinel Butte I-94 Exit 10. Rainbow trout stocked annually, with some up to 2 pounds. Abundant largemouth bass are mostly small, some up to 5 pounds and bluegill up to a 3/4 pound. Some brown trout and smallmouth bass.

Golden Valley County

Odland Dam (Golden Valley County): 7 miles north of Beach. Abundant perch up to 1 pound and bluegill up to 1 pound. Abundant yearling walleye with some up to 1/4 pound. (Fishing pier).

Williams Creek Dam (Golden Valley County): 7 miles south, 5 miles east, 2 miles south of Golva. Fair number of bluegill with some up to 1 pound. Some largemouth bass up to 2 pounds and small green sunfish. (No ramp).

Grand Forks County

English Coulee Pond (Grand Forks County): 5 miles south, 3 miles east, 1 mile south, .5 miles east of Emerado. (No ramp).

Fordville Dam (Grand Forks County): 5 miles west, 1 mile north, .5 miles west, .5 miles north of Inkster. Fair numbers of larger walleye and pike, with good numbers of perch under 10 inches. Bullheads remain a management issue. (Fishing pier).

Kolding Dam (Grand Forks County): 5 miles southeast, 1 mile south of Niagara on U.S. Highway 2. Managed for northern pike.

Larimore Dam (Grand Forks County): 2 miles northeast of Larimore. Walleye, pike, largemouth bass, perch, crappie and bluegill provide angling opportunities. Most crappie and bluegill are currently smaller fish. (Fishing pier).

Niagara Dam (Grand Forks County): North of Niagara. Reservoir winterkills often. When a series of nice winters occur, nice-sized pike available.

Ryan Park Pond (Grand Forks County): South side of Grand Forks. This small urban fishery is a good place to take a kid fishing and is stocked annually with trout. Bluegill also introduced. (Fishing pier, no ramp).

Grant County

Heart Butte Reservoir (Grant County): Good number of mostly small walleye with some up to 8 pounds, catfish up to 10 pounds, northern pike up to 10 pounds, white bass up to 2 pounds, perch up to 1 pound and smallmouth bass up to 3 pounds. Some crappie up to 1 pound and bluegill up to a 3/4 pound. Abundant large buffalo up to 25 pounds and some large carp up to 14 pounds.

Lower End -- 17.3 miles south on ND HWY 49, .6 miles southwest Glen Ullin (Gravel access road, developed and primitive camping, picnic shelter, trash receptacles -- Grant County JDA).

North Shore -- 16.6 miles south on ND HWY 49, .3 miles west of Glen Ullin (Gravel access road, fish cleaning facility, security lights, picnic shelter, trash receptacles, concession -- Grant County JDA).

Cabin Area -- 12.5 miles south on ND HWY 49, 1.6 miles south, 1.4 miles west of Glen Ullin (Gravel access road, no restrooms -- Grant County JDA).

Boy Scout Camp -- 17.3 miles south on ND HWY 49, 1.5 miles west, .8 miles north of Glen Ullin (Gravel access road, fish cleaning facility, primitive camping, picnic shelter, trash receptacles, fishing pier -- Grant County JDA).

Carson Sportsmens -- 17.3 miles south on ND HWY 49, .8 miles west, 1.7 miles west-northwest of Glen Ullin (Gravel access road, picnic shelter, trash receptacles -- Grant County JDA).

Elgin Sportsmen -- 19.5 miles south on ND HWY 49, .5 miles west, 2 miles north, .7 miles east of Glen Ullin (Gravel access road, picnic shelter, trash receptacles, fishing pier -- Grant County JDA).

Crappie Creek -- 12.5 miles south on ND HWY 49, 1.8 miles south of Glen Ullin (Gravel access road, primitive camping, picnic shelter, trash receptacles -- Grant County JDA).

Schatz Creek -- 19.5 miles south on ND HWY 49, .5 miles west, 1.9 miles north, 1.6 miles east of Glen Ullin (Gravel access road, primitive camping, picnic shelter, trash receptacles -- Grant County JDA).

Sled Creek (New Leipzig) -- 19.5 miles south on ND HWY 49, .5 miles west, 1 miles south, 1.3 miles west, 1.5 miles south of Glen Ullin (Gravel access road, primitive camping, picnic shelter, trash receptacles -- Grant County JDA).

Kahlers Point -- 11.9 miles south on ND HWY 49, 1.8 miles south of Glen Ullin (Gravel access road, primitive camping, picnic shelter, trash receptacles -- Grant County JDA).

Grant County

Sheep Creek Dam (Grant County): 4 miles south, .5 miles west of Elgin. Rainbow trout stocked annually, with some up to 2 pounds. Abundant bluegill up to 1/2 pound and crappie up to 1/2 pound. Fair number of largemouth bass up to 5 pounds. Some walleye up to 4 pounds, brown trout up to 2 pounds and smallmouth bass up to 1 pound. (Fishing pier).

Griggs County

Lake Addie (Griggs County): 4 miles east, 1 mile south, 1 mile west of Binford. Managed as a walleye and perch fishery. Walleye are nice-sized, with an average length of 19 inches. Perch numbers high, with some fish up to 10 inches.

Carlson-Tande Dam (Griggs County): 1 mile south, 5 miles west of Aneta. Some pike, a few nice walleye, smaller perch and various sized panfish.

Lake Jessie (Griggs County): 4 miles east, 1 mile south, 1 mile west of Binford. Primarily an ice fishing lake for pike that average about 30 inches. (No ramp).

Red Willow Lake (Griggs County): 6 miles north, 2 miles west of Binford. Walleye, pike, perch and bluegill common. Nice walleye are available. Pike are abundant in many sizes. Bluegill common and mostly smaller but some up to 10 inches. Perch typically small. (Fishing pier).

Sibley Lake (Griggs County): 1 mile west, 3 miles south of Binford. Good pike population. Some perch. (No ramp).

Hettinger County

Blickensderfer Dam (Hettinger County): 4 miles south, 1 mile east, .5 miles south of Mott. Abundant small bluegill, with some up to 1 pound. Some walleye up to 5 pounds, northern pike up to 8 pounds and small perch. (No ramp).

Castle Rock Dam (Hettinger County): 2 miles west, 1.5 miles south, 1.5 miles west of Mott. Rainbow trout stocked annually. Some trout up to 2 pounds present.

Indian Creek Dam (Hettinger County): 1.5 miles west, 2 miles south, 2 miles west, 3 miles south of Regent. Abundant walleye up to 10 pounds, small yellow perch, with some up to a half pound and bluegill up to 1 pound. Some smallmouth bass up to 2 pounds and largemouth bass up to 1 pound. (Fishing pier).

Larson Lake (Hettinger County): .5 miles north and 2 miles east of Regent. Abundant northern pike up to 5 pounds and yellow perch up to 1 pound.

Mott Watershed Dam (Hettinger County): North side of Mott. Rainbow trout stocked annually, with some up to 2 pounds. Abundant bluegill up to 1 pound. Abundant small largemouth bass, with a few up to 3 pounds. (Fishing pier).

Kidder County

Alkaline Lake (Kidder County): 15 miles south, 7 miles east, 1.4 miles southeast of Dawson. Walleye are abundant. Excellent numbers of pike, with fish occasionally surpassing 10 pounds. Large perch are present in low numbers.

Cherry Lake (Kidder County): 15 miles north, 3 miles east of Steele. Northern pike are abundant and low numbers of perch are present.

Deer Lake (Kidder County): 8 miles east of Robinson. Perch up to 12" are abundant. (No ramp).

Des Moines Lake (Kidder County): 5.5 miles east of Robinson. Fair numbers of northern pike. (No ramp).

Etta-Alkaline Complex (Kidder County): 1 mile south, 2.5 miles west, 3 miles south of Dawson. Small northern pike are abundant. (No ramp).

Fresh Lake (Kidder County): 15 miles south, 7 miles east, 1 mile south of Dawson. Primarily a northern pike fishery, but a fair number of walleye and perch are present. (No ramp).

Frettim Lake (Kidder County): 2 miles east, 1 mile north of Robinson. Good numbers of walleye, northern pike, perch and bluegill.

Geier Lake (Kidder County): 12 miles east, 9.5 miles north of Robinson. Walleye up to 20" are abundant and fair numbers of perch are present. (No ramp).

Kidder County

- Lake Geneva** (Kidder County): 2 miles south, .5 miles east of I-94 Exit 195. Walleye up to 20" are abundant and fair numbers of large perch are present. (No ramp).
- Helen Lake** (Kidder County): 2.5 miles west, 6 miles north of Tuttle. Excellent northern pike fishery, with fish occasionally topping 8 pounds. Perch also present. (No ramp).
- Horsehead Lake** (Kidder County): 2 miles west, 8 miles south, .25 miles east of Robinson. Northern pike are abundant. (No ramp).
- Lake Isabel** (Kidder County): 2 miles south, .5 miles east, .75 miles south of Dawson. Small northern pike are abundant.
- Jasper Lake** (Kidder County): 7 miles north, .5 miles east of Robinson. Walleye up to 25" are abundant and fair numbers of large perch are present.
- Lake Josephine** (Kidder County): 2 miles north of Tuttle. Walleye up to 25" are abundant. Fair numbers of perch and northern pike are present. (Fishing pier).
- Koenig North** (Kidder County): 12.25 miles north, 1.5 miles east of Robinson. Multiple perch year-classes present (winter access only). (No ramp).
- Koenig South** (Kidder County): 12.25 miles north, 1.5 miles east of Robinson. Multiple perch year-classes present (winter access only). (No ramp).
- Lake No. 5** (Kidder County): 3.5 miles west, 7.5 miles north, 1.5 miles east, 1 mile south of Dawson. Northern pike are abundant, but the lake experiences frequent winterkills. (No ramp).
- Leno Lake** (Kidder County): 1 mile east, 7 miles north of Tuttle. Small northern pike are abundant. (No ramp).
- Long Alkaline Lake** (Kidder County): 3 miles west, 7 miles north of Robinson. Small northern pike are abundant and yellow perch are present. (No ramp).
- McPhail WMA** (Kidder County): 7 miles north, 2 miles west of Tappen. Small perch are abundant and low numbers of walleye are present. (No ramp).
- Neustel Lake** (Kidder County): 2 miles north of Robinson. A fair number of perch are present. (No ramp).
- North Des Moines Lake** (Kidder County): 5.5 miles east of Robinson. Fair numbers of northern pike are present. (No ramp).
- Pelican Lake** (Kidder County): 3 miles east, 11 miles north, 1 mile east of Robinson. Yellow perch up to 12" are common. (No ramp).
- Plowe Lake** (Kidder County): 6 miles east, 5 miles north, 1 mile east of Robinson. Walleye, northern pike, and perch are present in good numbers. (No ramp).
- Rafferty Lake** (Kidder County): 12 miles east, 9.8 miles north of Robinson. Walleye up to 18" are abundant. (No ramp).
- Ranch Lake** (Kidder County): 1 mile west of Pettibone. Good numbers of northern pike and yellow perch. (No ramp).
- Remmick Lake** (Kidder County): 3 miles east, 6 miles north of Robinson. Healthy walleye population and low numbers of perch and bluegill. Winter fishing only. (No ramp).
- Round Lake** (Kidder County): 1 mile north, 1.5 miles east of Pettibone. Excellent walleye fishery, with fair numbers of perch and northern pike. (No ramp).
- Seil Lake** (Kidder County): 6 miles east, 10 miles north, 4.25 miles east of Robinson. Abundant yellow perch. (No ramp).
- Sibley Lake** (Kidder County): 7 miles north, 2 miles east, 1 mile south of Dawson. Small walleye are abundant and larger fish are present. Multiple year-classes of perch are also present in good numbers.
- Swan Lake** (Kidder County): 10.5 miles north of Robinson. Yellow perch up to 12" are abundant. (No ramp).
- Trautmann Lake** (Kidder County): 1 mile west, 2 miles north, 1 mile west, 1 mile north of Robinson. Walleye up to 19" are abundant and perch are present in low numbers. (No ramp).

Kidder County

Vogel WPA (Kidder County): 12 miles east, 9.5 miles north of Robinson. Walleye are abundant. (No ramp).

Lake Williams (Kidder County): Just south of the town of Lake Williams. Fair numbers of walleye, northern pike and smallmouth bass.

Willow Lake (Kidder County): 9 miles north, 3 miles west of Robinson. Yellow perch up to 11" are abundant. (No ramp).

Woodhouse Lake (Kidder County): 12 miles north, 12 miles east of Wing. Walleye up to 26" are abundant. Fair numbers of small perch are present. (No ramp).

LaMoure County

Alfred Lake (LaMoure County): 7 miles east, 1.5 miles south of Gackle. Various sizes of pike and perch. (No ramp).

Boom Lake (Marion Lake) (LaMoure County): .5 miles west of Marion. Fair walleye and pike fishery.

Cottonwood Lake (LaMoure County): 5 miles west, 5 miles south, 1 mile west of LaMoure. Moderate numbers of medium sized pike. (No ramp).

Diamond Lake (LaMoure County): 5 miles north of Kulm. Walleye and perch abundant.

East Kalmbach Lake (LaMoure County): .5 mile south, 4.5 miles west, .5 miles south of Jud. Good numbers of pike. Occasional perch. (No ramp).

Flood Lake (LaMoure County): 3.5 miles north of Kulm. Fair number of pike. Perch up to 13 inches. Some walleye.

Heinrich-Martin Dam (LaMoure County): .75 miles east, .5 miles south of Adrian. Largemouth bass abundant. Bluegill and crappie in fair numbers.

Kalmbach Lake (LaMoure County): .5 miles south, 4.5 miles west, .5 miles south of Jud. Fair numbers of pike.

Kulm-Edgeley Dam (LaMoure County): 4 miles west, 2 miles south of Edgeley. Fair numbers of pike. Low population of medium- to large-sized walleye. Perch abundant.

Lake LaMoure (LaMoure County): 1 mile south, 1 mile east, 2.5 miles south, 1 mile west, .5 miles south of LaMoure. Fair numbers of pike, walleye and crappie. Bluegill present. (Fishing pier).

Limesand-Seefeldt Dam (LaMoure County): 8 miles south, 3 miles west of Marion. Fair numbers of pike, bluegill and crappie.

Schlecht-Thom Dam (LaMoure County): 5 miles west, .5 miles north of Edgeley. Fair numbers of pike and bluegill.

Schlenker Dam (Lehr Dam) (LaMoure County): 11 miles west, .5 miles south of the junction of U.S. Highway 281 and ND Highway 46. Fair numbers of pike and bluegill.

Twin Lakes (LaMoure County): 4 miles north of LaMoure. Good numbers of walleye, pike and perch.

Logan County

Arnies Lake (Logan County): 1.5 miles south of Gackle, 2 miles east, 1 mile south. Fair numbers of pike, perch and walleye. (No ramp).

Beaver Lake (Logan County): 8 miles south, 8 miles east of Napoleon. Northern pike are abundant, with fish occasionally surpassing 10 pounds.

Braun Lake (Logan County): 18 miles south, 1 mile east of Steele. Yellow perch are abundant. (No ramp).

Buchholz WPA (Logan County): 4 miles east, .75 miles north of Lehr. Fair numbers of yellow perch are present. (No ramp).

Dewald Lake (Logan County): 8 miles north, 2 miles east, 1 mile north, 1 mile east of Lehr. Small yellow perch are common. (No ramp).

Doyles Lake (Logan County): 2.5 miles north, 2 miles east, 4 miles north, 1 mile east, .5 miles north of Wishek. Fair numbers of yellow perch are present. (No ramp).

Logan County

Erickson Lake (Logan County): 8.5 miles north, 3 miles west, 1 mile north, 1.5 miles west, .5 miles south of Kulm. Good perch population with various sizes present. (No ramp).

Hauff Lake (Logan County): 7 miles north of Lehr. Small yellow perch are common. (No ramp).

Kautz Lake (Logan County): 5 miles north, 6 miles west of Lehr. Yellow perch up to 13" are common. (No ramp).

Kleingartner Lake (Logan County): 10 miles south, 5 miles west of Gackle. Fair numbers of northern pike and yellow perch are present. (No ramp).

Lepp Lake (Logan County): 1 mile east, 1 mile north of Lehr. Northern pike and perch are present in good numbers. (No ramp).

Logan (Mueller) WMA (Logan County): 8 miles north, 5 miles west, .5 miles south of Lehr. Walleye are abundant and low numbers of perch up to 13" are present. (No ramp).

Logan Lake (Logan County): 1 mile west of Gackle. Small perch and walleye are abundant. (No ramp).

Marvin Miller Lake (Logan County): 6.5 miles south, 8 miles west, .5 miles north of Gackle. Excellent walleye fishery. Fair number of yellow perch and a low number of northern pike are present as well.

Mundt Lake (Logan County): 3 miles east, 4 miles north, 1 mile east, .5 miles south of Lehr. Walleye are abundant and perch and smallmouth bass are present in fair numbers. (Fishing pier).

North Napoleon Lake (Logan County): 4.5 miles west, 1 mile north, 1 mile east of Napoleon. Northern pike and yellow perch are abundant. (No ramp).

Oriole Lake (Logan County): 8.25 miles south of Gackle. Good numbers of pike. (No ramp).

Ost Lake (Logan County): 7 miles east, 1 mile north, 1 mile west, .5 miles north of Lehr. Yellow perch up to 12" are abundant. (No ramp).

Railroad Lake (Logan County): 5.5 miles east of Lehr. Yellow perch are abundant and low numbers of walleye are present. (No ramp).

Ruff Lake (Logan County): 5 miles north, 3 miles west, 1 mile north, .5 miles east of Lehr. Yellow perch are common. (No ramp).

Thurn Lake (Logan County): 5 miles north of Lehr, .5 miles east. Fair numbers of walleye and perch are present. (No ramp).

Weigel Lake (Logan County): 5 miles south, 3 miles east of Napoleon. Small northern pike are abundant and yellow perch are present. (No ramp).

Wentz WPA (Logan County): 12 miles east of Napoleon. Walleye up to 20" are abundant. (No ramp).

West Lake Napoleon (Logan County): 1 mile west of Napoleon. Northern pike are abundant and fair numbers of large yellow perch are present. (Fishing pier, no ramp).

Wetzel Lake (Logan County): 11 miles west, 1 mile south of Gackle. Northern pike are abundant and yellow perch are present. (No ramp).

McHenry County

Bentley Lake (McHenry County): 3 miles west of Drake. Fair number of small pike and some perch. (No ramp).

Buffalo Lodge Lake (McHenry County): 1 mile east, 3 miles north, 2 miles east of Granville. Excellent pike numbers. Walleye population somewhat reduced, with increased pike population. Mostly small perch. (Fishing pier).

Cottonwood Lake (McHenry County): 2.5 miles north of Butte. Decent numbers of pike and a good number of nice-sized walleye. (Fishing pier).

George Lake (McHenry County): 13 miles north, 1 mile east, 1.3 miles north, .5 miles east of the junction of U.S. Highway 52 and ND Highway 14. Good number of pike, with some large fish. (Fishing pier).

McHenry County

Round Lake (McHenry County): 6 miles north, 3.7 miles east, 1 mile north of Drake. Good numbers of pike and some walleye. (No ramp).

McIntosh County

Becker-Schlepp Lake (McIntosh County): 3 miles north, 1 mile east, 1 mile north, .5 miles east of Ashley. Fair numbers of perch are present. (No ramp).

Berlin Lake (McIntosh County): 9.5 miles east, 7 miles north, 2 miles east, 2 miles north of Ashley. Perch present. (No ramp).

Blumhardt Dam (McIntosh County): 9.5 miles east, 7 miles north, 1.5 miles east of Ashley. Brown and rainbow trout. Some larger fish.

Clear Lake (McIntosh County): 6 miles east, 2 miles south of Wishek. Northern pike are abundant. (No ramp).

Coldwater Lake (McIntosh County): 15.5 miles east, 1 mile south, 1 mile west of Ashley. Good numbers of medium sized pike. Moderate numbers of walleye with some larger fish present. (Fishing pier).

Dollinger-Schnabel Lake (McIntosh County): 2 miles north, 5 miles west, 3 miles north of Venturia. Yellow perch up to 12" are abundant. (No ramp).

Dorfman Lake (McIntosh County): 5 miles north, 2 miles west of Ashley. Perch and walleye are abundant with a fair number of pike present as well. (No ramp).

Dry Lake (McIntosh County): 5 miles west, 4 miles north, 2 miles east, .5 miles south of Ashley. Excellent walleye and northern pike fishery. Large perch are present in low numbers.

Green Lake (McIntosh County): 2 miles east, 4 miles south, 1 mile east of Wishek. A quality walleye and perch fishery, with a low number of pike. (Fishing pier).

Harr Lake (McIntosh County): 10 miles east, 12 miles north of Ashley. Fair numbers of large yellow perch and small walleye are present. (No ramp).

Homestead Lake (McIntosh County): 8 miles south, 8 miles east, 2 miles north of Wishek. Northern pike are abundant and perch are present. (No ramp).

Lake Hoskins (McIntosh County): 3 miles west of Ashley. Fair numbers of walleye, northern pike and yellow perch are present. (Fishing pier).

Kislingbury Lake (McIntosh County): .5 miles east, 1.5 miles north of Ashley. Fair numbers of yellow perch and small walleye are present. (No ramp).

Lehr WMA (McIntosh County): 2 miles east, 1 mile south of Lehr. An excellent walleye fishery. Low number of large yellow perch are also present.

McIntosh WMA (McIntosh County): 10 miles east, 9 miles north of Ashley. Abundant perch up to 13". (No ramp).

Miller Lake (McIntosh County): 7.5 miles east, 2.5 miles south of Lehr. Northern pike up to 10 pounds are abundant and yellow perch are present. (No ramp).

Mudd Lake (McIntosh County): 1 mile west of Lehr. Fair number of northern pike, with low numbers of yellow perch. (No ramp).

Nagel Lake (Koeplin WPA) (McIntosh County): 1 mile east, 1 mile south, 1 mile east of Lehr. Walleye are abundant and fair numbers of perch are present. (No ramp).

Pfeifle Lake (McIntosh County): 10 miles south, 2 miles east of Wishek. Northern pike up to 12 pounds are abundant. (No ramp).

Pintail Lake (McIntosh County): 5 miles east of Ashley. Small perch are abundant. (No ramp).

Pudwill Lake (McIntosh County): 9 miles south, 4 miles west, 1 mile north, .5 miles west of Lehr. Low numbers of northern pike are present. (No ramp).

McIntosh County

Rueb-Eszlinger (McIntosh County): 7.5 miles north, 2 miles west of Ashley. Multiple year-classes of perch are abundant. (No ramp).

Serpent Lake (McIntosh County): 13.5 miles east, 2 miles north, 1 mile east of Ashley. Fair numbers of pike. (No ramp).

McKenzie County

Arnegard Dam (McKenzie County): .5 miles west, 3 miles north, 1.5 miles southwest of Arnegard. Primarily northern pike, with some larger pike. Some adult yellow perch and an abundance of black bullhead. Stocked with adult catfish in 2016 (Fishing pier).

Leland Dam (McKenzie County): 11 miles south, 8 miles west, 8 miles south, 2 miles southeast, 1.5 miles east, 1 mile north of Alexander. Strong bluegill and largemouth bass populations. Partial winterkill in 2013-14 didn't hurt these populations much. Lack of public use facilities and poor access at times tend to limit use.

Sather Dam (McKenzie County): 11 miles south, 8 miles west of Alexander. Fish populations recovering after significant winterkill in 2010-11. Good numbers of smaller bluegill and largemouth bass. (Fishing pier).

Watford City Park Pond (McKenzie County): Southeast side of Watford City. All fish lost to winterkill nearly every winter. Stocked annually in spring with adult channel catfish and catchable rainbow trout. (Fishing pier, no ramp).

McLean County

Lake Audubon (McLean County): Good number of walleye and an excellent smallmouth bass fishery. Anglers should see good numbers of 14- to 16-inch walleye. Some large pike.

Totten Trail -- 6 miles north on US HWY 83, .2 miles east, .3 miles south of Coleharbor (Paved access road, fish cleaning facility, developed and primitive camping, security lights, picnic shelter, trash receptacles, RV dump station, fishing pier -- U.S. Army Corps of Engineers).

Three Mile Corn -- 8.3 miles north on US HWY 83, 3 miles east, 1 miles south of Coleharbor (Gravel access road, no restrooms, primitive camping -- McLean County Park Board).

Cabin Sites -- 8.3 miles north on US HWY 83, 5.8 miles east, .8 miles south of Coleharbor (Gravel access road -- McLean County Park Board).

North Arm -- 8.3 miles north on US HWY 83, 7 miles east of Coleharbor (Paved access road, no restrooms -- McLean County Park Board).

Lane Ramp -- 8.3 miles north on US HWY 83, 7.7 miles east, 1.5 miles south, 1 mile west of Coleharbor (Gravel access road, no restrooms, no courtesy docks, primitive camping -- North Dakota Game and Fish Department).

Turtle Lake Ramp -- 8.3 miles north on US HWY 83, 7.7 miles east, 2.2 miles south of Coleharbor (Gravel access road, no restrooms, no courtesy docks, primitive camping -- North Dakota Game and Fish Department).

Refuge-East -- No Public Boating Access Gravel access road, no restrooms, no courtesy docks -- Audubon NWR).

Nelson Bay -- No Public Boating Access Gravel access road, no restrooms, no courtesy docks -- Audubon NWR).

Refuge-West -- No Public Boating Access Gravel access road, no restrooms, no courtesy docks -- Audubon NWR).

Lake Brekken (McLean County): 1.5 miles north of Turtle Lake. Good numbers of perch, mostly smaller. Good number of walleye, with some larger fish. (Fishing pier).

Brush Lake (McLean County): 3 miles north of Mercer. Decent number of perch and walleye. Good pike population, with some larger fish. (Fishing pier).

Camp Lake (McLean County): 17.5 miles north, 2 miles east of Turtle Lake. Decent number of pike and lots of small perch. (No ramp).

Camp Loop Pond (McLean County): 3 miles southwest of Riverdale on U.S. Army Corps of Engineers' downstream campground. Stocked annually with rainbow trout. (Fishing pier, no ramp).

McLean County

Coal Lake (McLean County): 3 miles south, 1.5 miles east, .75 miles north of Underwood. Newer walleye lake with a good number of small to medium sized walleye. (No ramp).

Crooked Lake (McLean County): 10 miles north, .2 miles east, .1 mile south of Turtle Lake. Good numbers of nice-sized pike and walleye, with some smaller perch. (Fishing pier).

Custer Mine (McLean County): 4 miles east, 2 miles south of Garrison. A good put-and-take rainbow trout fishery in a small, easy-to-fish pond.

East Park Lake (McLean County): 9 miles south of Mercer. Decent walleye numbers, with some larger fish. Fair number of small- to medium-sized yellow perch. Bluegill population has increased in recent years. (Fishing pier).

Elsie Lake (McLean County): .7 miles east, 6 miles south of Butte. Stocked with perch in 2014. (No ramp).

Lake Gertie (McLean County): 1 mile south of Benedict. Fairly new lake, with a good number of pike. (No ramp).

Lake Holmes (McLean County): 1 mile northeast of Turtle Lake. Small perch abundant. Good number of walleye with some larger fish.

Lightning Lake (McLean County): .5 miles east of Turtle Lake. A quality trout fishery, with some large fish. Stocked annually with rainbow trout. (Fishing pier).

Long Lake (McLean County): 13 miles north, 4 miles east, 2 miles north, 1.5 miles west of Turtle Lake. Good number of northern pike.

Painted Woods Creek (McLean County): 5 miles southeast of Washburn. Fair number of northern pike. (No ramp).

Pelican Lake (McLean County): 7 miles north, 3 miles east, .4 miles north of Mercer. Abundant perch and some pike. (No ramp).

Riverdale City Pond (McLean County): North side of Riverdale. Popular pond for kids and family outings. Lots of small bluegill. Stocked annually with rainbow trout. (Fishing pier, no ramp).

Scooby Lake (McLean County): .5 miles south, 1 miles west, .3 miles south of Benedict. New fishery with a good number of small to medium sized walleye. (No ramp).

Strawberry Lake (McLean County): 17.5 miles north, 2 miles east of Turtle Lake. Good pike population. Lots of small perch and bluegill. (Fishing pier).

Triangle Y Pond (McLean County): 4 miles west, 1.5 miles south, 1 mile west, 1 mile south, 1 mile west, .5 miles south of Garrison. Small pond stocked with perch, used mostly by Triangle Y kids. (Fishing pier, no ramp).

Turtle Lake (McLean County): 4.5 miles west, 1 mile north of Turtle Lake. Decent number of northern pike, with some larger fish. (No ramp).

Weishaar WPA (McLean County): 8 miles north, 8 miles west, 1 mile north of Turtle Lake. Winter perch fishery. (No ramp).

West Park Lake (McLean County): 9 miles south, 2 miles west of Mercer. Fair numbers of walleye and small perch. Good number of pike, with some larger fish. (No ramp).

Mercer County

Beulah Mine Pond (Mercer County): 2 miles north, 2.5 miles east, .5 miles north of Beulah. Some pike and perch. (No ramp).

Harmony Lake (Mercer County): 6 miles north, 1 mile west of Hazen. Good number of bluegill, with some quality-sized fish. Stocked annually with rainbow trout. (Fishing pier).

Hazen Creek (Mercer County): West end of Hazen. Rainbow trout stocked annually. (No ramp).

Morton County

Crown Butte Dam (Morton County): 4 miles west on access road on north side of I-94 Exit 147. Largemouth bass and bluegill are abundant. Crappie are also present. (Fishing pier).

Morton County

Danzig Dam (Morton County): 2 miles north, 1.4 miles west, .2 miles north of I-94 Exit 120. Some northern pike up to 4 pounds, walleye up 1/2 pound, small perch and bluegill up to 3/4 pound. Abundant carp up to 4 pounds and bullhead up to 1/2 pound.

Fish Creek Dam (Morton County): 8 miles south, 2 miles east, 1 mile south of I-94 Exit 134. Largemouth bass and rainbow trout are abundant. Smallmouth bass, brown trout and crappie are present in lower numbers. (Fishing pier).

Gaeb Pond (Morton County): 1.5 miles west of New Salem. Rainbow trout stocked annually. Adult catfish up to 5 pounds stocked most years. Some small perch and bluegill. (Fishing pier, no ramp).

Harmon Lake (Morton County): 8 miles north of Mandan on ND Highway 1806. Largemouth bass, bluegill and crappie are abundant. Rainbow trout and northern pike are present in lower numbers. (Fishing pier).

Krieg's Pond (Morton County): .5 miles east of Hebron. Rainbow trout stocked annually. Adult yellow perch stocked most years. Adult catfish stocked in 2015 and 2016. (No ramp).

Little Heart Pond (Morton County): 11 miles south of Mandan on ND Highway 1806. Catchable-sized rainbow trout are stocked in the spring. (No ramp).

Nygren Dam (Morton County): 6 miles north, 1 mile east, 3 miles north, .5 miles east of Flasher. Winterkilled in 2014. Catchable-size trout are stocked in spring and small bluegill and largemouth bass are present. (Fishing pier).

Porsborg Dam (Morton County): Northwest Mandan. Rainbow trout (and other species) may be stocked in the spring. (No ramp).

Sweet Briar Lake (Morton County): 18 miles west of Mandan I-94 Exit 134. Fair numbers of walleye, northern pike, yellow perch, bluegill, crappie and largemouth bass are present. (Fishing pier).

Mountrail County

Clearwater Lake (Mountrail County): 2 miles east, 3.8 miles north, .5 miles east, 3 miles north-northeast, .5 miles east of Stanley. Strong population of 2- to 4-pound northern pike, a few smaller perch. Stocked with walleye in 2016.

Stanley Pond (Mountrail County): Northeast side of Stanley. Suffers from significant winterkill most winters. Stocked annually in spring with adult channel catfish and catchable rainbow trout. (Fishing pier).

Stanley Reservoir (Mountrail County): 1 mile south of Stanley. Good number of small northern pike.

White Earth Dam (Mountrail County): 6 miles north, 8.5 miles east, 2 miles south of Tioga. Fishery consists primarily of northern pike, but also fair numbers of walleye, yellow perch, a few black crappie and some large bluegill. White suckers are fairly abundant and a management problem. (Fishing pier).

Nelson County

Lake Laretta (Nelson County): 2 miles west, 3 miles north of Michigan. Good pike fishery, with numbers of medium-sized fish, but some pushing 15 pounds. Perch that survive pike predation are large, but uncommon. Increasing walleye densities with some nicer-sized fish. (No ramp).

McVile Dam (Nelson County): 1 mile east of McVile. Some larger walleye, largemouth bass and pike available, but at low densities. Perch and bluegill typically small. (Fishing pier).

Silver Creek Dam (Nelson County): 4 miles west, .5 miles south of McVile. Small reservoir, with a winter pike fishery. (No ramp).

Stump Lake (Nelson County): The walleye population in Stump Lake is doing well. There are a variety of sizes available, with good numbers of fish from 15 to 20 inches long. Larger fish seem to be showing up more frequently, as the walleye population in Stump Lake continues to mature.

Northern pike numbers have been decreasing over the past few years and they are below average, but they are still relatively abundant in Stump Lake. Most of the pike are medium sized, but there are larger fish present.

The numbers of yellow perch in Stump Lake had been good, but their numbers appear to be lower this year. There should still be perch fishing opportunities in 2016 and 2017, as the numbers of 8 to 10 inch perch are still a bit above average, but the other sizes are below average.

The white bass numbers in Stump Lake remain low.

Nelson County

Northwest Area -- No Public Boating Access

East Central Area -- No Public Boating Access

Tolna Landing (Stump Lake) -- 3 miles north of Tolna. (Gravel access road, fish cleaning facility, security lights, picnic shelter, trash receptacles -- Tolna Community Club).

Stump Lake Park -- 11 miles south, 1 mile west of Lakota. (Paved access road, fish cleaning facility, developed and primitive camping, security lights, picnic shelter, trash receptacles, concession, lodging, RV dump station, fishing pier -- Nelson County Park Board).

Tolna Dam (Nelson County): 1 mile south, 2 miles east of Tolna. Some larger walleye and good densities of pike under 5 pounds. Perch numbers fairly low.

Whitman Dam (Nelson County): 1.5 miles north, 3 miles east of Whitman. Keeper-sized perch, with most under 10 inches. Fair fishing for pike and walleye. Low density crappie population, with some large fish. (Fishing pier).

Multi-County Waters

Bois De Sioux River (Not Specified County): Southeast corner of state in Richland County. Good catfish and walleye populations. (No ramp).

Cannonball River (Not Specified County): In Slope, Hettinger, Grant and Sioux counties. Abundant carp most of the time. Some walleye, northern pike and catfish during spring spawning. (No ramp).

Devils Lake (Not Specified County): The walleye population in Devils Lake continues to do well. Reproduction in recent years has generally been good and there are many fish that are less than 18 inches long. The numbers of walleye that are 15 to 20 inches long is above the long-term average. The number of walleye over 20 inches long is lower than that of the smaller fish, but these larger fish are right around their long-term average, so there are larger walleyes present. The numbers of larger walleye would likely be better, but weak hatches produced from 2003-2005 are likely contributing to their lower abundances.

Northern pike will continue to provide excellent angler opportunities in 2016-2017. The northern pike in Devils Lake are doing very well and continue to reproduce naturally. Pike are abundant and can be found throughout the lake, particularly in the shallower areas. Most of the northern are between 20 to 28 inches, but trophy-sized pike are known to be present in the lake. Northern are a very under-utilized fish in Devils Lake, so anglers should not be shy about keeping their limit of pike.

The numbers of catchable-sized yellow perch in Devils Lake are lower than last year. The numbers of perch from 8 to 10 inches are a bit above the long-term average, while the other sizes of perch are below the long-term average. Overall, there should be perch for anglers to pursue in 2016-2017.

White bass numbers have increased recently. However, most of them are from the strong hatch in 2015, so they are still relatively small. Most of them will probably be between 8 to 11 inches long in 2016-2017. All of the other size classes of white bass are significantly below their long term averages due to weak reproduction from 2010 to 2014.

Pelican Lake Bay -- 15 miles west of Devils Lake on ND Highway 19. (Paved access road, trash receptacles -- North Dakota Game and Fish Department).

Minnewaukan Dumpground -- 1.5 miles south of Minnewaukon on old U.S. Highway 281. (Gravel access road, no restrooms -- Minnewaukan Community Club).

Round Lake Bay -- 3 miles south of Minnewaukan on U.S. Highway 281. (Paved access road, trash receptacles - - Minnewaukan Community Club).

Grahams Island State Park -- 10 miles west of Devils Lake on ND Highway 19, then 6 miles south. (Paved access road, fish cleaning facility, developed and primitive camping, security lights, picnic shelter, trash receptacles, concession, lodging, access fee, RV dump station -- North Dakota Parks and Recreation).

Schwab Landing -- 7 miles west of Devils Lake on ND Highway 19. (Paved access road, fish cleaning facility, developed and primitive camping, security lights, picnic shelter, trash receptacles, concession, RV dump station -- North Dakota Game and Fish Department).

Creel Bay -- 3 miles south of Devils Lake on ND Highway 20, then 2 miles west and .25 miles north. (Paved access road, fish cleaning facility, developed and primitive camping, security lights, picnic shelter, trash receptacles -- Ramsey County Park Board).

Henegar Landing -- 1 mile west of Devils Lake on ND Highway 19, then .75 miles south. (Paved access road, fish cleaning facility, security lights, trash receptacles -- Ramsey County Park Board).

Multi-County Waters

Spirit Lake Casino -- 6 miles south of Devils Lake on ND Highway 20/57. (Paved access road, fish cleaning facility, developed and primitive camping, security lights, trash receptacles, concession, lodging, boat rental, RV dump station -- Spirit Lake Casino).

East Bay -- 3 miles south of Devils Lake on ND Highway 20. (Paved access road, security lights, trash receptacles -- North Dakota Game and Fish Department).

Estenson Landing -- 15 miles south of Devils Lake on ND Highway 20. (Paved access road, no restrooms, trash receptacles -- North Dakota Game and Fish Department).

Heart River (Not Specified County): In Stark, Grant, and Morton counties. Abundant carp and buffalo most of the time. Some walleye, northern pike and catfish during spring spawning. (No ramp).

James River (Not Specified County): Southeastern part of the state. Shore-fishing opportunities where lowhead dams and bridge crossings congregate pike and walleye.

Knife River (Not Specified County): In Dunn and Mercer counties. Connected to the Missouri River, so a variety of fish species available. (No ramp).

Little Missouri River (Not Specified County): Southwestern part of state. Abundant catfish up to 10 pounds. Some sauger and walleye during spring spawning. (No ramp).

McClusky Canal (Not Specified County): Central part of state in McLean, Burleigh and Sheridan counties. Excellent smallmouth bass fishery, with some larger fish. (No ramp).

Missouri River (Not Specified County): The fishery downstream of Garrison Dam to the South Dakota border was greatly impacted following the flood of 2011. The Garrison Reach upstream of Bismarck has been slow to recover and still suffers from depressed forage conditions. Fishing will likely remain good in the coming year due to depressed forage conditions and decent walleye abundance, but anglers should expect to encounter few large walleye. The catch will be dominated by fish from the 2008-09 year-classes that have been slow growing, but most should reach the 14- to 16-inch size in 2016.

Northern pike abundance has declined from recent years, but average size is excellent, with many fish in the 15- to 20-pound range. Garrison Dam Tailrace continues to produce trophy brown and rainbow trout. Rainbow trout have done especially well, with good numbers of 5- to 10-pound fish caught by anglers, with the occasional larger fish landed. The Tailrace brown trout fishery continues to produce exceptional fish, with a 20-pound fish always a possibility. Cutthroat trout have not done quite so well in recent years. Following their initial boom in the early 2000s, the population has declined in numbers and quality despite continued stocking. Channel catfish are abundant and underutilized throughout the entire reach.

Garrison Dam Tailrace -- Directly below Garrison Dam. (Paved access road, fish cleaning facility, developed camping, security lights, trash receptacles -- U.S. Army Corps of Engineers).

UPA Site (Stanton) -- Just west of UPA Power Plant on ND Highway 200A near Stanton. (Paved access road, security lights, trash receptacles -- City of Stanton).

Washburn -- On east side of the Missouri River near Washburn, north of ND Highway 200A bridge. (Paved access road, fish cleaning facility, primitive camping, security lights, trash receptacles, RV dump station, fishing pier -- Washburn City Park Board).

Sanger (Cross Ranch) -- Just east of Sanger townsite on west side of Missouri River. (Gravel access road, primitive camping, picnic shelter, trash receptacles -- North Dakota Parks and Recreation).

Steckel Boat Landing (Wilton) -- 22 miles north of Bismarck on ND Highway 1804, or 5.5 miles west, 1 mile south, and 1.5 miles west of junction of U.S. Highway 83 and ND Highway 36. (Paved access road, primitive camping, picnic shelter, trash receptacles -- Burleigh County Park Board).

Hoge Landing -- On east side of the Missouri River near Bismarck, 6.4 miles north of I-94 bridge on River Road, then .7 miles west and 1.5 miles south/southwest. (Gravel access road, no courtesy docks, picnic shelter, trash receptacles -- Bismarck Parks and Recreation).

Kniefel Landing -- On east side of the Missouri River near Bismarck, 3 miles north of I-94 bridge on River Road, then 1 mile west. (Paved access road, fish cleaning facility, security lights, picnic shelter, trash receptacles, concession -- Burleigh County Park Board).

Grant Marsh Bridge -- On east side of the Missouri River near Bismarck, south side of the I-94 bridge on River Road. (Paved access road, security lights, trash receptacles -- Bismarck Parks and Recreation).

Multi-County Waters

Fox Island Park -- From Washington Street, .75 miles west on Riverwood Drive (1 block south of Expressway), 1.5 miles south and .5 miles west. (Paved access road, fish cleaning facility, security lights, trash receptacles -- Bismarck Parks and Recreation).

Little Heart Bottoms (Schmidt) -- 11 miles south of Mandan on ND Highway 1806, then 1 mile north. (Paved access road, trash receptacles -- Morton County Park Board).

Kimball Bottoms (Desert) -- 8 miles south of Bismarck on ND Highway 1804, then 2 miles south. (Paved access road, primitive camping, picnic shelter, trash receptacles -- Burleigh County Park Board).

Graner Bottoms (Sugar Loaf) -- 19 miles south of Mandan on ND Highway 1806, then 1 mile east, or about 3 miles north of Huff. (Paved access road, fish cleaning facility, developed and primitive camping, security lights, picnic shelter, trash receptacles, RV dump station -- Morton County Park Board).

Lake Oahe (Not Specified County): The fishery downstream of Garrison Dam to the South Dakota border was greatly impacted following the flood of 2011. Fortunately, the upper Oahe fishery has recovered much better than the Garrison Reach. Forage conditions have improved and growth rates of walleye have followed. Like the Garrison Reach, the dominant 2009 year-class will provide most of the harvest for anglers in 2016. The majority of those fish should be 15 to 20 inches in 2016.

Northern pike abundance has declined from recent years, but average size is excellent, with many fish in the 15- to 20-pound range.

Channel catfish are at record abundance and vastly underutilized throughout upper Lake Oahe.

Maclean Bottoms (Gun Range) -- 14 miles south of Bismarck on ND Highway 1804, then 2 miles south. (Paved access road, picnic shelter, trash receptacles -- Burleigh County Park Board).

Hazelton -- 31 miles southeast of Bismarck on ND Highway 1804 or 13 miles west and 2 miles north of Hazelton. Campground located just south of boat ramp. (Paved access road, developed and primitive camping, security lights, picnic shelter, trash receptacles -- U.S. Army Corps of Engineers).

Fort Rice -- 28 miles south of Mandan on ND Highway 1806, then .5 miles east. (Paved access road, fish cleaning facility, primitive camping, security lights, picnic shelter, trash receptacles -- Morton County Park Board).

Prairie Knights Marina -- 10 miles south of the Cannonball River on ND Highway 1806, then 3.5 miles east. (Gravel access road, fish cleaning facility, developed and primitive camping, security lights, picnic shelter, trash receptacles, lodging, RV dump station -- Prairie Knights Casino).

Beaver Bay -- 13 miles west of Linton on ND Highway 13, then 2 miles south on ND Highway 1804. (Paved access road, fish cleaning facility, developed and primitive camping, security lights, picnic shelter, trash receptacles, concession, RV dump station -- U.S. Army Corps of Engineers).

Jennerville (Rivery) -- 13 miles west of Linton on ND Highway 13, then 6.5 miles south on ND Highway 1804, and 3.5 miles west at Rivery turnoff. (Gravel access road, no restrooms, no courtesy docks -- U.S. Army Corps of Engineers).

Cattail Bay (Winona) -- 10 miles west of Strasburg, 1 mile south, 7 miles west, then 1 mile north on ND Highway 1804, 2 miles west, 2 miles south, 1 mile west. (Gravel access road, primitive camping, trash receptacles, concession -- U.S. Army Corps of Engineers).

Fort Yates -- North edge of Fort Yates. (Paved access road, primitive camping, picnic shelter, trash receptacles -- Standing Rock Sioux Tribe).

Langeliers Bay -- 10 miles west of Strasburg, 1 mile south, 7 miles west, then 11 miles south on ND Highway 1804, and .75 miles west. (Paved access road, fish cleaning facility, primitive camping, security lights, trash receptacles -- Emmons County Park Board).

Red River (Not Specified County): Catfish abundant, with large fish common. Fair number of walleye, with large fish present. Low pike population.

Kidder Recreation Area -- North edge of Wahpeton. (Paved access road, fish cleaning facility, developed and primitive camping, security lights, picnic shelter, trash receptacles, RV dump station -- Wahpeton Park District).

Brushvale Bridge -- 6 miles east, 1.3 miles south and east of Galchutt. (Paved access road, no restrooms -- Wahpeton Park District).

Fort Abercrombie -- Just west of Abercrombie. (Paved access road, no restrooms, primitive camping, security lights, picnic shelter -- City of Abercrombie).

Multi-County Waters

52nd Ave Area -- 52nd Avenue in South Fargo. (Paved access road, picnic shelter, trash receptacles -- Fargo Park District).

Midtown Dam -- Main Avenue south .3 miles off Lindenwood Dr. Fargo. (Paved access road, picnic shelter, trash receptacles -- Fargo Park District).

Belmont Park -- 10 miles east and 1.5 miles north of Buxton. (Paved access road, no courtesy docks, developed and primitive camping, security lights, picnic shelter, trash receptacles -- Trail County Park Board).

Lincoln Park -- Belmont road and Elk Drive, Grand Forks. (Paved access road, no courtesy docks, picnic shelter, trash receptacles -- City Of Grand Forks).

North Forks Landing -- 1 mile north of US Hwy 2 on Old Mill Road, Grand Forks. (Paved access road, trash receptacles -- City Of Grand Forks).

Drayton Dam -- 2 miles north, 1 mile east of Drayton. (Gravel access road, security lights -- City Of Drayton).

Drayton City Park -- East side of Drayton. (Paved access road, fish cleaning facility, security lights -- City Of Drayton).

Pembina City Park -- East side of Pembina. (Paved access road, fish cleaning facility, developed and primitive camping, security lights, picnic shelter, trash receptacles, access fee, RV dump station -- Pembina Community Club).

Lake Sakakawea (Not Specified County): Walleye fishing was good in 2016 and should remain so in 2017. High forage abundance and good habitat conditions have allowed Sakakawea walleye to maintain good body condition, good growth rates and high abundance. Overall walleye abundance is the highest ever documented in the last 45 years due to several strong year-classes in recent years. Fish exceeding 20 inches are not real abundant, but anglers will find excellent numbers of 15- to 20-inch walleye in 2017.

Northern pike abundance has declined from record highs the last couple years, but still remains exceptional. However, the population is maturing and average size is increasing. Pike exceeding 15 pounds will become more common in 2017 and the next few years.

Smallmouth bass reproduction was exceptional beginning in 2008 and anglers have been encountering good numbers of fish the last couple years. The population also contains good numbers of whopper-sized fish.

The Missouri River salmon fishery was greatly affected by high water in 2011 but has recovered well. Salmon fishing in 2016 was exceptional and should remain so in 2017. Young male salmon were very abundant in the 2016 spawning run, suggesting that the 2015 year-class is very strong and fishing should be good over the next couple years. With a strong smelt forage base and declining effects of the 2011 flood, salmon fishing should remain good in coming years.

Lewis And Clark State Park -- 16 miles east of Williston on ND Highway 1804, then 3 miles south. (Paved access road, fish cleaning facility, developed and primitive camping, security lights, picnic shelter, trash receptacles, concession, lodging, access fee, RV dump station -- North Dakota Parks and Recreation).

Whitetail Bay (Lund's Landing) -- 22 miles east of Williston on ND Highway 1804. (Paved access road, fish cleaning facility, developed camping, security lights, picnic shelter, trash receptacles, concession, lodging, boat rental -- Williams County WRD).

Tobacco Garden Creek Bay -- 2 miles east of Watford City on ND Highway 23, then 25 miles north and east on ND Highway 1806. (Paved access road, fish cleaning facility, developed and primitive camping, security lights, picnic shelter, trash receptacles, concession, lodging, RV dump station -- McKenzie County Park Board).

Little Beaver Bay -- 32 miles northwest of New Town on ND Highway 1804, then 3 miles south. (Gravel access road, fish cleaning facility, developed and primitive camping, security lights, picnic shelter, trash receptacles -- Williams County WRD).

White Earth Bay -- 28 miles northwest of New Town on ND Highway 1804, then 2 miles south, 1 mile east, 3 miles south, 3 miles east. (Gravel access road, fish cleaning facility, developed and primitive camping, security lights, picnic shelter, trash receptacles, concession, RV dump station, fishing pier -- Mountrail County Park Board).

Sanish Bay (Aftem) -- 1 mile north, 2 miles west of New Town. (Gravel access road, no restrooms -- New Town Park Board/Aftem Development).

Multi-County Waters

New Town Marina -- 2 miles west of New Town on ND Highway 23. (Paved access road, fish cleaning facility, developed and primitive camping, security lights, picnic shelter, trash receptacles, concession, RV dump station -- New Town Marina Association).

Four Bears -- 4 miles west of New Town on ND Highway 23. (Paved access road, fish cleaning facility, developed and primitive camping, security lights, picnic shelter, trash receptacles, concession, lodging, RV dump station -- Three Affiliated Tribes).

Pouch Point -- 7 miles south, 2 miles east, 2 miles south, 1 mile east, 3 miles south of New Town. (Paved access road, no restrooms, security lights, picnic shelter, trash receptacles, concession -- Three Affiliated Tribes).

Littlefield Bay -- 5 miles south, 2 miles east of New Town. (Gravel access road, no restrooms, no courtesy docks -- North Dakota Game and Fish Department).

Van Hook -- 5 miles east of New Town on ND Highway 23, then 2 miles south. (Paved access road, fish cleaning facility, developed and primitive camping, security lights, picnic shelter, trash receptacles, concession, RV dump station -- Mountrail County Park Board).

Parshall Bay -- 3 miles west, 1 mile south, 3 miles west, 1 mile south, 2 miles west of Parshall. (Paved access road, fish cleaning facility, developed and primitive camping, security lights, picnic shelter, trash receptacles, concession, boat rental, RV dump station -- Mountrail County Park Board).

Skunk Bay -- 14 miles northeast of Mandaree. (Gravel access road, developed and primitive camping, concession, lodging -- Three Affiliated Tribes/Roads Maker, Inc.).

Deep Water Creek Bay -- 14 miles south of Parshall on ND Highway 37, then either 1 mile south to the corps ramp or 2.5 miles west and .5 miles south to the county ramp. (Gravel access road, primitive camping, security lights, picnic shelter, trash receptacles -- U.S. Army Corps of Engineers/McLean County Park Board).

Hale Marina -- 18 miles southeast of Mandaree. (Gravel access road, no restrooms, no courtesy docks -- Three Affiliated Tribes).

McKenzie Bay -- 22 miles southeast of Mandaree. (Gravel access road, fish cleaning facility, developed and primitive camping, security lights, picnic shelter, trash receptacles, concession, lodging, RV dump station -- Watford City Park Board).

Little Missouri Bay -- 16 miles northeast of Dunn Center. (Gravel access road, security lights -- Dunn County Park Board).

Charging Eagle Bay -- 12 miles north of Halliday on ND Highway 8, then 10 miles west on BIA No. 22. (Gravel access road, no restrooms, fish cleaning facility, primitive camping, trash receptacles -- Three Affiliated Tribes).

Indian Hills Resort -- 11 miles west of White Shield on ND Highway 1804, then 3 miles south. (Gravel access road, fish cleaning facility, developed and primitive camping, security lights, picnic shelter, trash receptacles, concession, lodging, boat rental, RV dump station -- North Dakota Parks and Recreation/Three Affiliated Tribes).

Beaver Creek Bay -- 12 miles north of Zap. (Paved access road, primitive camping, picnic shelter, trash receptacles -- Zap City Park Board).

Dakota Waters Resort -- 15 miles north of Beulah. (Paved access road, fish cleaning facility, developed and primitive camping, security lights, picnic shelter, trash receptacles, concession, lodging, boat rental, RV dump station -- Dakota Waters Resort).

Beulah Bay -- 17 miles north of Beulah. (Paved access road, fish cleaning facility, developed and primitive camping, security lights, picnic shelter, trash receptacles, lodging, RV dump station -- Beulah City Park Board).

Douglas Creek Bay -- 5 miles south, 4 miles east of Emmet to corps ramp or 2 miles south, 1 mile east, 1 mile south of Emmet to county ramp. (Gravel access road, primitive camping, trash receptacles -- U.S. Army Corps of Engineers/McLean County Park Board).

Camp of the Cross -- 4 miles west, 1.5 miles south, 1 mile west, 1 mile south, 1 mile west, .5 miles south of Garrison. (Gravel access road, no restrooms -- Camp of the Cross).

Hazen Bay -- 14 miles north of Hazen. (Paved access road, fish cleaning facility, developed and primitive camping, security lights, picnic shelter, trash receptacles, concession, lodging, RV dump station -- Hazen City Park Board).

Multi-County Waters

Lake Sakakawea State Park -- Just east and north of Pick City. (Paved access road, fish cleaning facility, developed and primitive camping, security lights, picnic shelter, trash receptacles, concession, lodging, boat rental, access fee, RV dump station -- North Dakota Parks and Recreation).

Garrison Creek -- 2 miles west of Garrison on ND Highway 37, 3 miles south, 1 mile east. (Gravel access road, no restrooms -- Garrison Cabin Association).

Fort Stevenson State Park -- 3 miles south of Garrison. (Paved access road, fish cleaning facility, developed and primitive camping, security lights, picnic shelter, trash receptacles, concession, lodging, boat rental, access fee, RV dump station -- North Dakota Parks and Recreation).

Steinke Bay -- 3 miles west of the junction of ND Highway 37 and U.S. Highway 83, then 2 miles south. (Gravel access road, primitive camping -- North Dakota Game and Fish Department).

Sportsmens Centennial Park -- 1 mile west of the junction of ND Highway 37 and U.S. Highway 83, then 2 miles south, 1 mile west. (Gravel access road, fish cleaning facility, developed and primitive camping, security lights, picnic shelter, trash receptacles, concession -- McLean County Park Board).

West Totten Trail -- 7 miles north of Coleharbor on U.S. Highway 83, then .5 miles west, or 2 miles south of the junction of U.S. Highway 83 and ND Highway 37, then .5 miles west. (Gravel access road -- McLean County Park Board).

Wolf Creek -- 1 mile east of Riverdale on ND Highway 200, then 2 miles north, 1 mile east, 1 mile north, .5 miles east. (Gravel access road, fish cleaning facility, primitive camping, security lights, picnic shelter, trash receptacles, RV dump station -- U.S. Army Corps of Engineers).

Government Bay -- Just north of Riverdale. (Paved access road, fish cleaning facility, developed and primitive camping, security lights, trash receptacles -- U.S. Army Corps of Engineers).

Sheyenne River (Not Specified County): Southeastern part of state. Good numbers of smallmouth bass and channel catfish. Fair numbers of walleye. (Fishing pier).

Souris River (Mouse River) (Not Specified County): North central part of state. Good numbers of northern pike, walleye and perch. (Fishing pier).

Turtle River (Not Specified County): In Grand Forks County. Rainbow trout stocked twice in spring and once in fall to provide a unique riverine trout fishery. Mostly a put-and-take fishery. (No ramp).

Upper Missouri River (Not Specified County): Primarily a spring and fall fishery for sauger and walleye, but increasing angling effort targeting abundant channel catfish and northern pike populations. Many other species also present.

Confluence Area -- 1.5 miles south of Buford on ND Highway 1804. (Paved access road, developed and primitive camping, security lights, picnic shelter, trash receptacles -- Williams County WRD).

Lewis And Clark Bridge -- 4 miles west of Williston on U.S. Highway 2, 3 miles south on U.S Highway 85, on south side of Missouri River, and east side of U.S. Highway 85. (Paved access road, no courtesy docks, security lights, picnic shelter -- Williams County WRD).

Wild Rice River (Not Specified County): Southeastern part of state. Fair numbers of walleye and pike. (No ramp).

Yellowstone River (Not Specified County): Primarily a spring and fall fishery for sauger and walleye, but increasing angling effort targeting abundant channel catfish and northern pike populations. Many other species also present.

Sundheim Park -- 2 miles west of Cartwright on ND Highway 200, on west side of Yellowstone River and south side of ND Highway 200. (Paved access road, no courtesy docks, security lights, picnic shelter, trash receptacles -- Yellowstone Township).

Oliver County

East Arroda Dam (Oliver County): 1 mile east of Fort Clark ND Highway 200A. Decent crappie numbers, with some quality fish. Pike numbers have increased in recent years, with mostly smaller pike. Earthen fishing piers for shore-fishing access.

Nelson Lake (Oliver County): 5 miles east, 3 miles south of Center. The best largemouth bass lake in the state. Open water year-round allows warmwater fish to grow better than in other lakes. Abundant quality-sized bluegill and crappie. (Fishing pier).

Oliver County

Oliver County Sportsmen's Pond (Oliver County): 4 miles south, .5 miles west of Center. Rainbow trout stocked annually. (No ramp).

West Arroda Dam (Oliver County): 1 mile east of Fort Clark ND Highway 200A. Decent crappie numbers, with some quality fish. Earthen fishing piers for shore-fishing access.

Pembina County

Renwick Dam (Pembina County): 6 miles west, 1 mile north of Cavalier. Mostly pike and perch, with some crappie. Most crappie are under 8 inches. Perch are numerous, but typically smaller. White suckers and bullheads abundant. (Fishing pier).

Pierce County

Antelope Lake (Pierce County): 3 miles south, 5.4 miles west, 2.4 miles south of the intersection of ND highways 3 and 19. Nice-sized perch abundant. Good numbers of walleye, with some larger fish. (No ramp).

Balta Dam (Pierce County): .5 miles south of Balta. Significant winterkill in 2013. Restocked with northern pike fingerlings in spring 2014 and 2015.

Buffalo Lake (Pierce County): 4 miles west, 1 mile south of Esmond. Winterkills often and pike fishing opportunities occur when winters are mild. There currently is a high pike population with most fish about 2 feet long. (Fishing pier).

Clear Lake (Pierce County): 6 miles east, .7 miles south of Anamoose. Good numbers of quality-sized walleye and perch. (No ramp).

Davis Lake (Pierce County): 2 miles west, 1.5 miles south of Balta. Significant winterkill in 2013. Stocked with northern pike fingerlings in spring 2014.

Lesmeister Lake (Pierce County): 3 miles south, 3 miles west, 1.3 miles north of the intersection of ND highways 3 and 19. Newer walleye lake, with a good number small to medium sized fish. (No ramp).

Sand Lake (Pierce County): 4 miles north of Pleasant Lake. Good pike fishery. Pike common up to 5 pounds. Perch numbers are good but most are less than 8 inches. (Fishing pier).

Ramsey County

Cavanaugh Lake (Ramsey County): 9 miles north, 1 mile west, .5 miles north of Devils Lake. Winterkills often. Oxygen levels were low again this winter. (No ramp).

Fenster Lake (Ramsey County): 3 miles north, 4 miles east of Crary. Partial winterkill in 2013. Pike in fair numbers, with most fish around 4 pounds. (No ramp).

Irvine-Alice Complex (Ramsey County): 4.5 miles north, .5 miles east of Churchs Ferry. Boat access conditions are currently very poor, as the make-shift boat launching site a few miles north of Churchs Ferry is essentially unusable due to lower water levels.

The walleye population in Lake Irvine is doing very well. They are abundant with many sizes available. Most are between 14 and 20 inches long, but larger individuals are present in good numbers as well.

Northern pike are very abundant in Lake Irvine. Most of the pike are medium-sized, but there are some larger fish present. Pike in Lake Irvine are under-utilized, so anglers should not be shy about keeping their limit of pike from this lake. In fact, the pike seem to be too abundant for their own good, as their body condition, or plumpness, has been declining, so keeping pike from this lake would actually be beneficial for the pike population as it may help reduce competition for food.

The numbers of yellow perch in Lake Irvine are low, but the few perch in the lake tend to be larger individuals.

The white bass numbers in Lake Irvine are low, but they are good-sized.

The fish populations in Lake Alice are similar to those in Lake Irvine. (No ramp).

Morrison Lake (Ramsey County): 3 miles east, 2 miles south of Webster. Typically has good winter pike fishing until oxygen levels decline. Most fish are less than 5 pounds. (No ramp).

Sweetwater Lake (Ramsey County): 3 miles east, 7 miles north of Devils Lake. Low winter oxygen levels may have caused a partial fish kill. (No ramp).

Ransom County

Dead Colt Creek (Ransom County): 5 miles south, 1 mile east, .5 miles north, .5 miles east of Lisbon. Largemouth bass, bluegill and crappie abundant. Some large bass. (Fishing pier).

Lone Tree Lake (Englevale) (Ransom County): .5 miles north, 2 miles west of Englevale. Fair numbers of perch. (No ramp).

Mooringsstone Pond (Ransom County): .75 miles west of the city of Fort Ransom. Rainbow trout stocked annually. (No ramp).

Renville County

Lake Darling (Renville County): Strong populations of northern pike, walleye and yellow perch, and a few smallmouth bass. Black bullheads are extremely abundant and a serious management problem.

Outlet Fishing Area -- 6 miles east, 1 mile north, 1 mile east, .4 miles south of Carpio. (Gravel access road, no courtesy docks, picnic shelter, fishing pier -- Upper Souris NWR).

Spillway Boat Ramp -- 6 miles east, 1 mile north, 1 mile east of Carpio. (Paved access road -- Upper Souris NWR).

West Landing # 1 -- 6 miles east, 1 mile north of Carpio. (Gravel access road, picnic shelter -- Upper Souris NWR).

West Landing # 2 -- 6 miles east, 2 mile north of Carpio. (Gravel access road, no restrooms -- Upper Souris NWR).

West Landing # 3 -- 6 miles east, 3 mile north of Carpio. (Gravel access road, picnic shelter, fishing pier -- Upper Souris NWR).

Grano Crossing -- 1 miles west of Grano. (Paved access road, picnic shelter -- Renville County Park Board).

Greene Crossing -- 8 miles west, 7 miles south of Mohall. (Paved access road -- Renville County Park Board).

Headwaters Area -- No Public Boating Access

Glenburn Pond (Renville County): North side of Glenburn. Small pond stocked annually with trout. Yellow perch and bluegill stocked periodically. (No ramp).

Richland County

Arndt Lake (Richland County): 6 miles east, 7 miles south, .5 miles west, 1 mile south, .25 miles east of Lidgerwood. Developing bluegill fishery. (No ramp).

Bisek Slough (Richland County): 2 miles north, .5 miles west of Lidgerwood. Good numbers of pike and perch.

Elm Lake (Richland County): .5 miles east, 3.5 miles south of Lidgerwood. Good pike and crappie populations. Fair numbers of walleye. (No ramp).

Lake Elsie (Richland County): 1 mile south, 1.5 miles west of Hankinson. Walleye abundant, with some large fish. Crappie abundant. Smallmouth bass present. Perch and channel catfish common. (Fishing pier).

Four Corners Lake (Richland County): 3.5 miles east, 2 miles south, .5 miles west of Lidgerwood. Fair number of walleye up to 21 inches. (No ramp).

Grass Lake (Richland County): 2 miles west, 1 mile north, 1 mile west, 1 mile north, 1.5 miles west of Lidgerwood. Fair numbers of pike, walleye and largemouth bass. Crappie abundant. (Fishing pier).

Gullys Slough (Richland County): 4 miles east, 1 mile south of Lidgerwood. Fair number of pike. Expanding walleye population. (No ramp).

Haus Lake (Richland County): 2 miles east, 7 miles south, .25 miles east of Lidgerwood. Small- to medium-sized perch and walleye. (No ramp).

Heley Lake (Richland County): 5 miles north, 1 mile east, .5 miles south of Lidgerwood. Fair number of walleye up to 27 inches. Occasional perch. (No ramp).

Richland County

Horseshoe Lake (Richland County): 4 miles west, 1 mile south of Hankinson. Fair numbers of pike, perch, bluegill and walleye. Some large walleye. (No ramp).

Kreiser Slough (Richland County): 4 miles north, 3 miles west of Lidgerwood. Abundant pike and perch. (No ramp).

Lueck Lake (Richland County): 6 miles east, 2.5 miles south of Lidgerwood. Walleye abundant, with some large fish. (No ramp).

Mooreton Pond (Richland County): 2 miles east of Mooreton. Small bluegill abundant. Fair number of walleye, with some large fish. Good number of rainbow trout. Occasional perch, smallmouth bass and channel catfish. (Fishing pier).

Reiland Lake (Richland County): 3 miles north, .5 miles east of Lidgerwood. Fair numbers of walleye and perch. (No ramp).

Shriner Lake (Richland County): 4.5 miles south, .25 miles east of Lidgerwood. Fair numbers of pike and perch. (No ramp).

Silver Lake (Richland County): 2 miles north, 2 miles west of Lidgerwood. Fair numbers of pike and perch. (No ramp).

Vislisel Lake (Richland County): 1 mile north, 2 miles east, 1 mile north, 1 mile west of Lidgerwood. Good numbers of walleye and perch. (No ramp).

Wahl Lake (Richland County): 1 mile east, 2 miles south of Lidgerwood. Good numbers of walleye and bluegill. (No ramp).

West Moran Lake (Richland County): 2 miles east, .5 miles south of Lidgerwood. Good numbers of walleye. Walleye length restriction. (No ramp).

Rolette County

Belcourt Lake (Rolette County): 2 miles north of Belcourt. No recent information.

Cain Lake (Rolette County): 2 miles south, 9 miles west, .5 miles north of St. John. No recent information. (No ramp).

Carpenter Lake (Rolette County): 12 miles west of St. John. Good pike population, even during tough winters. Most fish less than 5 pounds. A few perch, but most are less than 8 inches.

Dion Lake (Rolette County): 10 miles west, 2 miles north, 1 mile east of St. John. Managed for walleye. Fair densities of fish up to 24 inches. Perch numbers expanding from illegal stocking, most are now about 9-10 inches. Illegally stocked pike are present and larger with adults over 24 inches. (Fishing pier).

Gordon Lake (Rolette County): 4.5 miles north, 1 mile west, .25 miles northwest of Belcourt. No recent information.

Gravel Lake (Rolette County): 6 miles west, .5 miles north of St. John. Pike and perch fishery. Pike average about 24 inches and most perch are under 10 inches. (Fishing pier).

Hooker Lake (Rolette County): 8 miles west of St. John. One of a few rainbow trout lakes in the district. Trout stocked annually and attain maximum size in fall. Some older, larger trout are available going into this winter. (Fishing pier).

Island Lake (Rolette County): 3 miles west, 2 miles south of Mylo. Suffered a significant winterkill in 2013. Currently good numbers of 2 foot long pike, some bigger fish.

Jarvis Lake (Rolette County): .75 miles southwest, 6 miles west of St. John. No recent information. (No ramp).

Jensen Lake (Rolette County): 9 miles west, 3 miles north of St. John. Overpopulation of stunted, skinny perch.

Long Lake (Rolette County): 2 miles south, 5.3 miles east of Rolette. Good number of pike, with the average fish over 5 pounds. (No ramp).

School Section Lake (Rolette County): 9 miles north, 2.5 miles east of Dunseith. Partial winterkill in 2013. Pike numbers still good, some perch available.

Lake Udall (Rolette County): Through the International Peace Garden, 13 miles north of Dunseith. Small pond stocked annually with rainbow trout. (No ramp).

Upsilon Lake (Rolette County): 6 miles west, 1 mile north of St. John. Perch fishing now considered fair, with lower numbers and fewer fish over 10 inches. Pike common, with some large fish. Walleye in low numbers despite aggressive stocking. Bluegill numbers are good with some big fish. (Fishing pier).

Rolette County

Wheaton Lake (Rolette County): 4.5 miles north, 2 miles west of Belcourt. No recent information.

Sargent County

Alkali Lake (Sargent County): 3 miles south of Cayuga. Abundant small crappie. Size restriction on walleye.

Bergh Slough (Sargent County): 1 mile south, 2.5 miles east of Forman. Fair numbers of pike and crappie. (No ramp).

Buffalo Lake (Sargent County): 6 miles north, 1 mile east of Rutland. Good walleye and pike populations. Large crappie present. Size restriction on walleye.

Consolidated Lake (Sargent County): 2 miles south, 3 miles east of Forman. Moderate numbers of pike, walleye, largemouth bass, and crappie present. (No ramp).

Fiala Lake (Sargent County): 1 mile west, 2 miles south of Forman. Fair numbers of pike with some larger fish present. (No ramp).

Kraft Slough (Sargent County): 1 mile south, 9 miles east, 2.5 miles north of Oakes. Walleye and perch abundant.

Ole Breum Lake (Sargent County): 5 miles north, 1 mile east of Rutland. Fair number of perch. Low number of pike. Occasional walleye and crappie. (No ramp).

Silver Lake (Sargent County): 3 miles west, 2 miles south of Rutland. Fair number of walleye. (Fishing pier).

Sprague Lake (Sargent County): 6 miles west, 4 miles south, 1.5 miles west of Cayuga. Fair number of walleye.

Lake Tewaukon (Sargent County): 5 miles south of Cayuga. Contact Tewaukon National Wildlife Refuge for most recent information. (Fishing pier).

Tosse Slough (Sargent County): 7.5 miles south, 1 mile east, 2 miles south, 1 mile east of Geneseo. Low numbers of pike and walleye. Some larger pike present.

Lake Walstead (Sargent County): 4 miles south, 1 mile east, 1 mile north of Forman. Fair numbers of pike and walleye. (No ramp).

Sheridan County

Bender Lake (Sheridan County): .5 miles south, 4 miles west, .5 miles south of Martin. Fair number of perch, mostly small fish. (No ramp).

Cherry Lake (Sheridan County): 7 miles north, 3 miles east, 2 miles north, .3 miles west of Mercer. Fair number of small perch, with some quality-sized fish. (No ramp).

Coal Mine Lake (Sheridan County): 14 miles south, 5 miles east of Anamoose. Good number of northern pike, with some larger fish. (Fishing pier).

Davis WPA (Sheridan County): 8 miles south, 1 mile east of Denhoff. Abundant perch, with some quality-sized fish. Decent number of walleye, with some larger fish. (No ramp).

Heckers Lake (Sheridan County): 9 miles south, 2.4 miles east of Mercer. Fair number of perch, with some quality-sized fish. Decent numbers of pike and smallmouth bass. (No ramp).

Hinsz Lake (Sheridan County): 18 miles north, 4.2 miles east of McClusky. Newer fishing lake, first stocked with perch and walleye in 2014. (No ramp).

Kaibel Lake (Sheridan County): 10.2 miles south of Drake. Lots of perch, many are smaller-sized. (No ramp).

Miller Lake (Sheridan County): 18 miles north, 2 miles east, .2 miles south of McClusky. New perch lake, first stocked in 2014. (No ramp).

Mud Lake (Sheridan County): 4.5 miles south of Anamoose. Newer perch lake, with a fair number of fish. (No ramp).

North (Hoffer) McClusky (Sheridan County): 2 miles north, 1 mile west of McClusky. Abundant northern pike. (No ramp).

Sheridan County

Lake Richard (Sheridan County): 4.5 miles south of Drake. Abundant yellow perch, with some quality-sized fish. (No ramp).

Sheyenne Lake (Sheridan County): 13.5 miles south, 1.5 miles east, .4 miles north of Anamoose. Pike stocked periodically. (No ramp).

South (Hoffer) McClusky (Sheridan County): 2 miles north, 1 mile west of McClusky. Decent numbers of perch, walleye and northern pike. Some bluegill and crappie. (Fishing pier).

Stober Lake (Sheridan County): 9 miles east, 2 miles north, 2 miles east of McClusky. Good number of walleye with some larger fish.

Vollrath Lake (Sheridan County): 5.5 miles north, 1 mile east, 1 mile south of Goodrich. Good number of perch, with some quality-sized fish. (No ramp).

Wolf Lake (Sheridan County): .5 miles south, 1.8 miles west of Martin. Significant winterkill in 2013. Restocked with northern pike fingerlings in spring 2013-14. (No ramp).

Sioux County

Froelich Dam (Sioux County): 9 miles north, 2 miles west of Selfridge. Walleye and northern pike are abundant. Yellow perch, crappie, bluegill and largemouth bass are present.

Larson Lake (Sioux County): 4 miles north, 1 mile west of Thunderhawk, South Dakota. History of winterkill. Largemouth bass and bluegill stocked in 2009. (No ramp).

Slope County

Cedar Lake (Slope County): 13 miles north, 2 miles west of Reeder. Winterkills often. Some northern pike up to 7 pounds, catfish up to 4 pounds and perch up to 1/2 pound. Removed 90 percent of bullhead population in 2015. Abundant carp up to 5 pounds.

Davis Dam (Slope County): 16 miles west, 4 miles north of Amidon. Rainbow trout stocked annually, with some up to 1.5 pounds. Fair number of bluegill up to 3/4 pound and largemouth bass up to 2 pounds.

Stark County

Belfield Pond (Stark County): Southwest side of Belfield. Rainbow trout stocked annually. Catfish up to 5 pounds stocked most years. Some perch and bluegill up to a half pound. Abundant green sunfish up to a quarter pound. (Fishing pier).

Dassinger Pond (Stark County): 8 miles south, 1 mile east, .8 miles north of Exit 72. Walk through the gate 500 yards northwest. Adult largemouth bass and bluegill stocked as needed. (No ramp).

Dickinson Dike (Stark County): Southwest side of Dickinson. Rainbow trout stocked annually, cutthroat trout stocked in 2016. Adult catfish up to 5 pounds stocked most years. Fair number of largemouth bass up to 4 pounds and small bluegill. (Fishing pier).

Dickinson Reservoir (Stark County): 2 miles west of Dickinson. Good numbers of walleye up to 4 pounds, northern pike up to 12 pounds, yellow perch up to 1 pound, bluegill up 3/4 pound. Some crappie up to 1/2 pound and catfish up to 15 pounds. Many large bullhead present. (Fishing pier).

Slater Pond (Stark County): From I-94 Exit 84, .75 miles north, 1 mile east, .5 miles north, .5 miles east. Rainbow trout stocked annually. Abundant small perch. (No ramp).

Steele County

Finley Dam (Lynch Lake) (Steele County): 1 mile south of Finley. Pike stocked regularly and provide some opportunities. A high bullhead population and stunted perch are management problems. (No ramp).

North Golden Lake (Steele County): 10 miles east, 4 miles north, .5 miles west of Finley. Perch numbers are down, with most less than 10 inches. Fair to good numbers of keeper pike and walleye. Walleye over 20 inches and pike to 5 pounds not uncommon. Low number of bluegill, but decent-sized.

Steele County

South Golden Lake (Steele County): 10 miles east, 3 miles north, .5 miles west of Finley. Primarily a walleye and perch fishery, with some pike and bluegill. Walleye do get large, with fish up to 8 pounds. Decent number of 24-inch fish as well. Pike numbers low, but bigger fish available. (Fishing pier).

Stutsman County

Alkali Lake (Stutsman County): 11 miles north, 5 miles east, .5 miles south of Jamestown. Perch, pike and walleye abundant. (No ramp).

Arrowwood Lake (Stutsman County): 3 miles south, 5 miles west of Kensal. No recent information. (No ramp).

Bader Lake (Stutsman County): 4 miles south, 1 mile east of I-94 Exit 228. Fair perch, pike and walleye populations.

Barnes Lake (Stutsman County): 1 mile east, 6 miles north of Woodworth. Good pike and walleye fishery.

Big Mallard Marsh (Stutsman County): 9 miles north, 2.5 miles east of Woodworth. Walleye abundant. Fair number of medium-sized pike.

Clark Lake (Stutsman County): 1 mile west, 3 miles north, 4 miles west of Woodworth. Good walleye, pike and perch populations.

Cleveland Slough (Stutsman County): .5 miles south of Cleveland along County Road 67. Perch up to 12 inches. Occasional large pike. (No ramp).

Crystal Springs (Stutsman County): 1 mile east of Crystal Springs. Fair number of pike, walleye and perch.

East Easter Lake (Stutsman County): 5 miles north, 4 miles east, 1 mile south of Streeter. Good perch population with various sizes present. (No ramp).

Gaier Lake (Stutsman County): 8.5 miles north, 1 mile west of Cleveland. Fair numbers of perch. Various sizes present. (No ramp).

Ghost Lake (Stutsman County): 8 miles east, 3 miles south, 1 mile west of Woodworth. Fair numbers of perch. Various sizes present. (No ramp).

Hehn-Schaffer Lake (Stutsman County): 4 miles north of Gackle. Fair number of pike. Occasional walleye and perch. (Fishing pier).

Hieb Lake (Stutsman County): 3.5 miles east, 6 miles north, 1 mile east of Medina. Fair numbers of perch. (No ramp).

Hoggarth Dam (Stutsman County): 3 miles west, 3 miles south of Courtenay. Fair numbers of perch. (No ramp).

Jamestown Reservoir (Stutsman County): Fair numbers of walleye. Very high numbers of crappie. Some large pike.

Marina Area -- 2 miles north on ND Highway 20, .5 miles southwest of Jamestown (Paved access road, fish cleaning facility, developed and primitive camping, security lights, picnic shelter, trash receptacles, concession, lodging, boat rental, RV dump station, fishing pier -- Stutsman County Park Board).

West Landing -- 4.5 miles north on U.S. Highway 281 and 1 miles east of Jamestown (Paved access road, trash receptacles -- Stutsman County Park Board).

Five Mile Corner Landing -- 5.5 miles north on ND Highway 20, .8 mile west of Jamestown (Gravel access road, trash receptacles, fishing pier -- Stutsman County Park Board).

Boat Club Bay -- 5.5 miles north on ND Highway 20, .4 mile west, .4 miles north, .3 miles west of Jamestown (Gravel access road, primitive camping, security lights, picnic shelter, trash receptacles -- Stutsman County Park Board).

Pelican Point -- 8 miles north on U.S. Highway 281, 2 miles east of Jamestown (Paved access road, fish cleaning facility, developed and primitive camping, security lights, picnic shelter, trash receptacles, concession, lodging, boat rental, RV dump station, fishing pier -- Stutsman County Park Board).

Above Pelican Point -- No Public Boating Access

Buchanan Bridge Area -- No Public Boating Access

Stutsman County

Jim Lake (Stutsman County): 6 miles east of Pingree. No recent information. (No ramp).

Little Britches Pond (Stutsman County): Next to Jamestown Reservoir marina. Rainbow trout common during early summer. Occasional crappie, perch and walleye. (No ramp).

Manley Lake (Stutsman County): 4 miles south, 9 miles west, .25 miles north of Pingree. Fair numbers of perch. (No ramp).

Mud and Pearl Lakes (Stutsman County): 10 miles north, 2.5 miles west of Medina. Perch abundant, with some large fish. (No ramp).

Paris Lake (Stutsman County): 8 miles east, 3.5 miles south of Woodworth. Fair numbers of perch. Various sizes present. (No ramp).

Pipestem Reservoir (Stutsman County): 5 miles northwest, .8 miles west, 1 mile south of Jamestown. Abundant pike and crappie. Recovering walleye population.

R and M Lake (Stutsman County): 4 miles east, 5 miles north of Buchanan. Good numbers of walleye. Fair numbers of perch. (No ramp).

Reule Lake (Stutsman County): 2 miles north, 5 miles west, 1.7 miles south of Medina. Good numbers of walleye and perch. (No ramp).

Schock Lake (Stutsman County): 11 miles north, 3.5 miles east, 1 mile north, .5 miles west of Jamestown. Good numbers of perch. Various sizes present. (No ramp).

School Lake (Stutsman County): 5 miles north, 5 miles east, 3 miles north of Streeter. Good numbers of perch. Various sizes present. (No ramp).

Spiritwood Lake (Stutsman County): 11 miles north, 4 miles east of Jamestown. Good numbers of smallmouth bass. Fair numbers of walleye and perch. Low numbers of pike. (Fishing pier).

Stink Lake (Stutsman County): 2.5 miles east of Crystal Springs. Fair numbers of walleye. Occasional perch and pike. (No ramp).

Streeter Lake (Stutsman County): South side of Streeter. Low pike population. Rainbow trout present.

Sunday Lake (Stutsman County): 1 mile west, 3 miles north of Woodworth. Fair number of pike. Some perch. (No ramp).

Zimmerman Lake (Stutsman County): 2 miles north of Cleveland. Good numbers of perch. Various sizes present. (No ramp).

Towner County

Armourdale Dam (Towner County): 9 miles east, 1.5 miles north of Rolla. Good pike numbers and fair numbers of eating sized walleye. (Fishing pier).

Bisbee Dam-Big Coulee (Towner County): 1 mile east of Bisbee. Pike, walleye, perch, bluegill and crappie. Most walleye over 16 inches. Good pike numbers with some up to about 6 pounds. Most perch are small, as well as the occasional large bluegill and crappie. (Fishing pier).

Walsh County

Bylin Dam (Walsh County): 3 miles east, 3 miles south of Adams. Nice population of smaller pike to keep youngsters entertained, with some keeper walleye. (Fishing pier).

Dougherty Dam (Walsh County): 1 mile west of Bylin Dam. Located just upstream from Bylin Dam. Holds some pike. (No ramp).

Homme Dam (Walsh County): 2 miles west of Park River. Lots of smaller perch and crappie, with some nice pike and walleye. White suckers and bullheads are abundant and problematic. (Fishing pier).

Matejcek Dam (Walsh County): 6 miles south of Lankin. Smaller walleye in fair numbers. Perch numbers appear lower. Pike and crappie numbers fair. Some large crappie available. White suckers abundant.

Ward County

Hiddenwood Lake (Ward County): 8 miles south of Makoti. Decent numbers of yellow perch, walleye, smallmouth bass and northern pike. (Fishing pier).

Lake Korslein (Ward County): 5 miles west, 3 miles north, .5 miles east of the junction of U.S. Highway 83 and ND Highway 23. New perch lake, first stocked in 2014. (No ramp).

Makoti Lake (Ward County): 6 miles south of Makoti. Good number of northern pike and yellow perch. (No ramp).

North Carlson Lake (Ward County): 10 miles east of Ryder. Good number of northern pike.

Rice Lake (Ward County): 4 miles north, 7 miles east, 2 miles north of Ryder. Good number of pike with a wide range of sizes.

South Carlson Lake (Ward County): 10 miles east of Ryder. Good fishing in recent years for mostly smaller pike. (Fishing pier).

State Fair Pond (Ward County): North end of state fair grounds. Small pond stocked annually with trout and panfish. (Fishing pier, no ramp).

Velva Sportsmen's Pond (Ward County): 7 miles south, 1.5 miles west, 1 mile south, .5 miles west of Velva. Consistently a quality fishery for nice-sized rainbow and brown trout.

Wells County

Georgeson Lake (Wells County): 3 miles north, 3 miles east, .25 miles north of Bremen. The yellow perch population is primarily smaller fish. Fewer bigger fish are left after the past 2 years of harvest. (No ramp).

Goose Lake (Wells County): 3 miles north, 3 miles east, 1 mile north of Harvey. Fair number of pike with increasing size structure. Walleye population in good shape, with some nice fish around 21 inches. Perch are down in numbers. (No ramp).

Harvey Dam (Wells County): Southeast side of Harvey. Fair numbers of walleye around 15 inches long. Good pike population with various sizes available. Too many bullheads are a perennial management problem. (Fishing pier).

Heaton Slough (Wells County): 4 miles east, 8 miles south, 3 miles east of Bowdon. (No ramp).

Hurd Lake (Wells County): 2 miles west, 3 miles south of Hurdsfield. Newer perch lake, with a fair number of fish. (No ramp).

Hurdsfield-Tuffy Lake (Wells County): 3.5 miles east of Hurdsfield. Lots of walleye between 12 and 18 inches, with the occasional big fish. Perch abundant, with most about 10 inches and some up to 13 inches. (No ramp).

Monson Lake (Wells County): 1 mile south, 1 mile east, 8 miles south, 1 mile west of Bowdon. Strong perch population, with a balanced size structure. Walleye population is small, with some big fish. (No ramp).

Silver Lake (Wells County): 1 mile west, 7.5 miles south, 2 miles west, 2 miles north of Bowdon. High perch densities. Lots of fish from 9 to 12 inches. The occasional 13- to 14-inch fish possible. (No ramp).

Silver Lake WMA (Wells County): 3 miles south of Chaseley. Lots of 8-10 inch perch, with some larger fish. The occasional jumbo possible. Fast growing walleye will be pushing 14 inches this winter. (No ramp).

Sykeston Dam (Wells County): Northwest side of Sykeston. Decent pike population, with some fish to 8 pounds. Bullheads are a major problem. A few perch and bluegill also present. (Fishing pier).

Weisz Lake (Wells County): 2 miles west, 1.5 miles south of Hurdsfield. Mostly smaller perch. (No ramp).

Williams County

Blacktail Dam (Williams County): 5 miles north, 5 miles west, 1 mile north of the junction of U.S. highways 2 and 85. Good numbers of northern pike, yellow perch and bluegill, and fair a number of walleye and smallmouth bass. White suckers are fairly abundant and remain a management concern. (Fishing pier).

Cottonwood Lake (Williams County): 1 mile east, .5 miles north of Alamo. Good pike fishery with a variety of sizes, abundant yellow perch though most are smaller. Stocked with walleye in 2016. (Fishing pier).

East Spring Lake Pond (Williams County): North side of Williston. Winterkills every year. Fishing opportunities totally reliant on annual stockings. Stocked with adult northern pike annually. (Fishing pier, no ramp).

Williams County

Epping-Springbrook Dam (Williams County): 1.5 miles east of Springbrook. Fair populations of northern pike, walleye and yellow perch. Black bullheads are abundant and a serious management problem. The lake is currently drawn down and the spillway is being repaired. The road is closed but will open when the construction project is complete in late September. Access is tough but the lake is still open to fishing. (Fishing pier).

Kettle Lake (Williams County): 3 miles east, 2.5 miles north of Zahl. Primarily a rainbow trout fishery, but also contains some brown trout and largemouth bass. Small yellow perch abundant. (Fishing pier).

Kota-Ray Dam (Williams County): 5 miles south, .5 miles east, 2 miles south of Ray. Primarily a rainbow trout, largemouth bass, yellow perch and bluegill fishery, but also contains some walleye and smallmouth bass. A few large walleye. (Fishing pier).

Little Muddy River (Williams County): East edge of Williston. Highly dependent on high water levels and fish movement from upper Missouri River. Fair populations of northern pike and channel catfish, with many other species present. (Fishing pier).

McGregor Dam (Williams County): 1 mile south of McGregor. Good numbers of walleye, yellow perch and rainbow trout. (Fishing pier).

McLeod (Ray) Reservoir (Williams County): Southwest side of Ray. Good populations of walleye, some nice yellow perch and abundant small pike. Bluegill present. (Fishing pier).

Tioga Dam (Williams County): North side of Tioga. Primarily a northern pike fishery, although a few perch and bluegill are present. (Fishing pier).

Trenton Lake (Williams County): South side of Trenton. Good numbers of northern pike, crappie and channel catfish. Due to periodic interconnection with Missouri River, many other species also present. (Fishing pier).

West Spring Lake Pond (Williams County): North edge of Williston. Stocked annually with rainbow trout and adult catfish. Black bullheads abundant and a serious management problem. (No ramp).
