

Handicap Accessible Fishing Facilities

Data as of: December 07, 2018

The North Dakota Game and Fish Department has installed handicapped accessible fishing facilities at many waters throughout the state to provide more public fishing opportunities. Facilities at most waters in the list below meet Americans with Disabilities Act requirements although the route or path from the designated parking area to the facility may not meet specific handicap requirements because of the type of surface, slope, and terrain. In almost all cases, persons with a disability can easily access the facility with assistance from another individual.
