

North Dakota Fishing Piers

Data as of: December 07, 2018

The North Dakota Game and Fish Department has installed floating fishing piers at many waters throughout the state to provide more public fishing opportunities. Piers at most waters in the list below meet Americans with Disabilities Act requirements although the route or path from the designated parking area to the pier may not meet specific handicap requirements because of the type of surface, slope, and terrain. In almost all cases, persons with a disability can easily access the pier with assistance from another individual.

Adams

Mirror Lake: South side of Hettinger, Assistance required to access this site
